MINUTES.

STATE OF NEW JERSEY,
HOUSE OF ASSEMBLY,
TRENTON, TUESDAY, January 12th, 1915.

House met at 12 o'clock (noon).

This being the day designated for the assembling of the one hundred and thirty-ninth Legislature of the State of New Jersey, House was duly called to order at twelve o'clock (noon) by the Honorable Mark F. Phillips, of Essex county, Clerk of the last House, who presided pending the organization of the House.

Prayer was offered by the Rev. J. Morgan Read, of New Brunswick.

Upon calling the roll the following gentlemen appeared and answered to their names:

Messrs. Agnew A. M., Agnew J. C., Anderson, Barbour, Barradale, Berry, Boland, Borden, Colgan, Conrad, Crosby, Dalrymple, DeCamp, De Yoe, Dolan, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Henry, Herrick, Hughes, Hunter, Iobst, Johnson H. D., Johnson J. J., Kates, Kays, LaPointe, Loblein, Martin, Morgan, Mutchler, Oliphant, Ostrom, Pancoast, Peacock, Pierson, Pilgrim, Quinn, Randall, Runyon, Schoen, Scudder, Sheppard, Singer, Smith, Stevens, Sullivan, Thomson, Titus, Vannote, Weart, West, Whitman, Wolf, Wolverton, Zeiger—60.

The following gentlemen presented certificates of election:

Atlantic county—Carlton Godfrey, Bertram E. Whitman.

Bergen county—Arthur M. Agnew, Edgar A. De Yoe, John J. Johnson.

Burlington county—Robert Peacock.

Camden county—John B. Kates, Garfield Pancoast, Charles A. Wolverton.

Cape May county—Lewis T. Stevens.

Cumberland county—Raymond Sheppard.

Essex county—E. Morgan Barradale, W. Clive Crosby, Thomas J. Smith, Eugene T. Scudder, Charles C. Pilgrim, H. Edward Wolf, William P. Berry, Harry D. Johnson, George M. Titus, Edward Schoen, Seymour P. Gilbert, Marcus De Camp.

Gloucester county—Oliver J. West.

Hudson county—James C. Agnew, Francis P. Boland, Ulysses G. Borden, Charles C. Colgan, Frank A. Dolan, Archibald M. Henry, Frank A. LaPointe, Thomas F. Martin, Charles W. Ostrom, Jacob J. Singer, Leo S. Sullivan, Edward C. Zeiger.

Hunterdon county—Harry J. Iobst.

Mercer county—James Hammond, Edgar G. Weart, A. Dayton Oliphant.

Middlesex county—Arthur A. Quinn, Charles Anderson, E. Leon Loblein.

Monmouth county—John Thomson, Harry G. Vannote.

Morris county—George W. Downs, Harry W. Mutchler.

Ocean county—David G. Conrad.

Passaic county—William J. Barbour, George H. Dalrymple, William Hughes, John Hunter, Edmund B. Randall.

Salem county—Lemuel H. Greenwood.

Somerset county—Ogden H. Hammond.

Sussex county—Henry T. Kays.

Union county—Charles L. Morgan, Arthur N. Pierson, William N. Runyon.

Warren county—Alonzo D. Herrick.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the reading of the certificates of election of the respective members be dispensed with.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the Honorable James C. Agnew, of Hudson county, who is a Master in Chancery of this State and a member of this House, administer the oath of office to the Honorable

Charles C. Pilgrim, of Essex county, a member-elect, by whom the oath of office shall be administered to the members-elect.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the Honorable John B. Kates, of Camden county, who is a Master in Chancery of this State and a member of this House, administer the oath of office to the Speaker and other officers of this House when they are elected.

Mr. J. C. Agnew administered the oath of office to the Hon. Charles C. Pilgrim, of Essex county, who administered the oath to the other members-elect.

All the members then signed the roll.

Mr. Runyon presented a notice of contest by J. R. Elliot of the right of Arthur M. Agnew, Edgar A. De Yoe and John J. Johnson to be seated in the General Assembly of 1915, and also a petition of Jason R. Elliott to the General Assembly of the State of New Jersey against the seating of Arthur M. Agnew, Edgar A. De Yoe and John J. Johnson as members from Bergen county, and moved that the matter be referred to the proper committee when appointed.

Which motion was adopted.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the House do now proceed with the election of Speaker.

Mr. Bertram E. Whitman, of Atlantic county, in a few well-chosen remarks nominated the Hon. Carlton Godfrey, of the same county, for Speaker.

Mr. James Hammond, of Mercer county, seconded the nomination of Mr. Godfrey.

Mr. James C. Agnew, of Hudson county, in a brief speech nominated the Honorable Arthur A. Quinn, of Middlesex county, for Speaker.

Mr. E. Leon Loblein, of the same county, seconded the nomination of Mr. Quinn.

Upon the calling of the roll Mr. Godfrey was elected by the following vote:

For Mr. Godfrey—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Greenwood, Hammond J., Hammond O. H., Hughes, Hunter, Johnson H. D., Kates, Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Quinn, Randall, Runyon, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—38.

For Mr. Quinn—

Messrs. Agnew A. M., Agnew J. C., Anderson, Boland, Borden, Colgan, De Yoe, Dolan, Henry, Herrick, Iobst, Johnson J. J., Kays, LaPointe, Loblein, Martin, Ostrom, Singer, Sullivan, Vannote, Zeiger—21.

Mr. Godfrey having received the majority of the votes was declared by the Clerk elected Speaker of the House for the session of 1915.

The Clerk requested the Hon. Arthur A. Quinn, of Middlesex county, the Hon. John B. Kates, of Camden county, and the Hon. Harry D. Johnson, of Essex county, to act as a committee to escort the Speaker to the Bar of the House, where the oath of office was administered to him by the Hon. John B. Kates.

Mr. Godfrey, on taking the chair, addressed the members as follows:

Fellow Members of the One Hundred and Thirty-ninth Assembly—I am grateful to the majority of this House for the confidence which you have shown in me and the honor which you have conferred upon me. I accept the position as your Speaker, fully realizing the importance of the position. The most effective manner, however, in which I can show the earnestness of my appreciation of this high office is in an unswerving loyalty to the principles of that party which has for its watchword "The Prosperity of All the People." The platform of our party shall be our guiding star. Because of the promises therein contained and the principles therein advocated, and the confidence of the people that these principles shall be our guide, and that these promises will be carried out in good faith, the Republican Party in this State is returned to power. The responsibility now rests upon the members of this House to conduct the business before it upon these lines wholly in the interests of the people and in a dignified and business-like manner.

It is our duty to pass bills that will result in an economical and efficient State administration. Extravagances and unnecessary expenditures should cease. All public business, whether for the State or for local municipalities, should be conducted more economically even than private business, for the reason that the State can purchase at wholesale rates, and the seller assumes no risk of possible loss.

The Civil Service laws should be carried out in good faith and not evaded with impunity. All claims against the State should be paid promptly at all times, and all purchases should be made at the lowest possible prices and confined to absolutely necessary articles. When the State contracts for work of any kind, the contractor should be required, in every case, to fully carry out the specifications and to complete the work within the time limited in the contract for its performance.

The exact financial condition of the State at the end of the fiscal year, October 31st, should be ascertained and made known to the people. Useless offices should be abolished and excessive salaries reduced. All officeholders who receive salaries sufficient to compensate them for their entire time should be expected, in good faith, to give that amount of time to the public service for which they receive compensation. Perhaps it could be found that more or less well-paid officeholders are not giving more hours to the public service each year than are the members of the Legislature who work for practically nothing. The answer that the salaries are customary and the customary amount of service is performed is no reply, and especially has this been true during the past two years when, by reason of impractical legislation, the income of the State has been so reduced that the effort of discovering additional sources of taxation upon the people has itself been a burden to the administration, both State and national. To-day these tax burdens are heavier than ever before in times of peace and as heavy as has often been the case in times of war. The freight and passenger rates upon the railroads have been so increased as to become a heavy additional burden upon the working man. This additional burden appears not only in the additional fares he pays, but in the added cost of the articles he buys by reason of the increased freight rate. Perhaps this increase is justified for the time being from the viewpoint of the railroads, but these increased rates were not necessary before the adoption of the mistaken national policy of practically free trade. The present low tariff has been proven to be entirely insufficient to protect the business interests and work-

ing people of our country. It is now generally admitted that this policy of the Democratic Party has caused the general business recession and a consequent reduction of the railroad traffic of the country. But the tariff was reduced to a point far below that necessary to produce the needed revenues. Large and absolutely inexcusable deficiencies in the revenues are being made up by direct and extreme taxes upon the people. The policy of free imports and indirect low tariffs has gone so far that to-day the most important question before the people of our own State and country is the problem of the unemployed. Almost every locality from the country village to the large city is dealing with this question. Municipalities should, where possible, construct public works in order to give work to the unemployed until the country has another chance to retrace its steps, change its policies and again become truly prosperous.

During the continuance of the horrible war in Europe more or less of our people are reported to be employed in the making of various muniments of war. What a basis for prosperity, even in a small community or factory—busy making death-dealing implements with which to prolong the conflict and to kill or maim perhaps thousands of men every day; this is not the kind of goods which we can be proud to see marked "Made in America," the peace-loving country of the world.

I submit to the people the question, "Shall we continue to encourage and give due credit to those hundreds of thousands of our people who have contributed of their means towards the relief of suffering humanity in Europe, or shall we aid in continuing the slaughter of human beings and thus create more suffering and dependency upon charity; which should be our national policy?" But what of the end of this conflict? Millions of men, women and children will then be compelled to work long hours making goods to ship to America, at any wages that can be obtained in the manufacture of cheap goods made to compete with our workmen in New Jersey and other States. In the meantime, our national policies should be changed and reasonable tariff laws again become our policy so that our factories and furnaces will again be busy, and our laboring men will all be employed at good wages; our laws imposing special taxes repealed, and our railroad rates again lowered to at least their former level.

Perhaps it is unusual to call your attention to matters of this kind on this occasion, but my only excuse is that I am interested, just as all of you are, more in the prosperity of the people of our State than I am in maintaining customs, however good.

About three millions of the most worthy people in the world live in New Jersey, and this House of Assembly, consisting of sixty members, is here to legislate for all of these people. Each member represents an average of fifty thousand people. It is a serious responsibility. By reason of your position each of you has a great influence for good. The fifty thousand people who sent each of us here are looking for real service. They are expecting the very best legislative work possible from us. If you singly or collectively have any influence with any member of Congress, it is your duty to use it now and not to wait until our working people are further injured. These questions should not be considered offensively partisan. All parties and all factions should work together in a crisis of this kind, and I appeal to all of you to join together in a solid phalanx for the sole benefit of the people of our State.

New Jersey is to-day perhaps the most prosperous of all the States of the Union, largely due to its location and nearness to the great markets, and to the fact that our summer and winter resorts bring into the State many millions of dollars of cash each month. It is very largely this special business that is now keeping New Jersey more prosperous than other States.

Before closing I wish to say to the members of the minority party that it will be the intention of the Speaker to extend every courtesy and consideration to each and every member alike. Full opportunity will be given for discussion of all matters before the House. No bill will be allowed to be acted upon until sufficient time shall have elapsed for its examination and consideration by the members. I shall ask the committees to give careful attention to every bill, so that errors in drafting or printing may be discovered and corrected, and the meaning of the bills be made plain.

True courtesy is expected from all officers and employees, not only towards members, but to all of the people with whom they come in contact.

I solicit the earnest coöperation of every member in expediting the business before the House, to the end that the session may be brought to a close at an early date, and that our efforts to conduct a business-like session may meet the approval of the people of our State.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the House now proceed with the election of Clerk of the House.

Mr. John B. Kates, of Camden county, placed in nomination Mr. Upton S. Jefferys, of the same county, for Clerk of the House, the nomination being seconded by Mr. Barbour, of Passaic county.

Mr. Martin, of Hudson county, placed in nomination Mr. Mark F. Phillips, of Essex county, for the same position, the nomination being seconded by Mr. James C. Agnew, of Hudson county.

Upon the roll being called by the Assistant Clerk, Mr. Jefferys was declared elected by the following vote:

For Mr. Jefferys—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Hughes, Hunter, Johnson H. D., Kates, Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Randall, Runyon, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—38.

For Mr. Phillips—

Messrs. Agnew A. M., Agnew J. C., Anderson, Boland, Borden, Colgan, De Yoe, Dolan, Henry, Herrick, Iobst, Johnson J. J., Kays, LaPointe, Loblein, Martin, Ostrom, Quinn, Singer, Sullivan, Vannote, Zeiger—22.

The Speaker declared Mr. Jefferys elected Clerk of the House of Assembly, and he thereupon took and subscribed to the oath of the office.

Mr. Runyon in a few remarks thanked Mr. Mark F. Phillips, the retiring Clerk of the House, for the many courtesies he had extended to him and the other members of the House.

The Speaker announced that he had appointed Mr. Francis E. Croasdale, of Atlantic county, as his secretary, and Mr. Sidney J. Turner, of Passaic county, as his assistant secretary.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the Speaker appoint forthwith a committee of three to wait upon the Governor and inform him that the House of Assembly has organized by the election as Speaker of the Honorable Carlton Godfrey of Atlantic county, and of Upton S. Jefferys, of Camden county, as Clerk, and is now

ready to proceed to business and to receive any communication he may be pleased to make.

In accordance with the above resolution, the Speaker appointed Messrs. Kates, Barbour, and A. M. Agnew as such committee.

A message was received from the Senate, by the hands of its Secretary, as follows:

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: January 12th, 1915.

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution:

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Hon. Walter E. Edge, of the county of Atlantic, President; and Francis B. Davis, of the county of Gloucester, Secretary, and has proceeded to business.

FRANCIS B. DAVIS,
Secretary of the Senate.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the Clerk of the House is hereby directed to inform the Senate that the House of Assembly has organized by the election as Speaker of the Honorable Carlton Godfrey, of Atlantic county, and of Upton S. Jefferys, of Camden county, as Clerk, and has proceeded to business.

Mr. Runyon offered the following resolution, which was read and adopted:

Resolved, That the House proceed to fill the remaining several offices and positions of the House, and that nominations be made and a vote taken for all of the offices and positions at one and the same time.

county; J. Paul Jamison, of Morris county; Sewell Thompson, of Ocean county; William Mills, of Salem county.

Postmaster—George Embley, of Mercer county.

Which resolution, upon the call of the roll, was adopted by the following vote:

In the affirmative were—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Hughes, Hunter, Johnson H. D., Kates, Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Randall, Runyon, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—38.

In the negative were—

Messrs. Agnew A. M., Agnew J. C., Anderson, Boland, Borden, Colgan, De Yoe, Dolan, Henry, Herrick, Iobst, Johnson J. J., Kays, LaPointe, Loblein, Martin, Ostrom, Quinn, Singer, Sullivan, Vannote, Zeiger—22.

The committee appointed to wait upon the Governor returned and reported that they had advised the Governor of the organization of the House of Assembly by the election of Hon. Carlton Godfrey as Speaker and Mr. Upton S. Jefferys as Clerk.

The committee was thereupon discharged with the thanks of the House.

A message was received from the Governor, by the hands of Mr. Herrmann, his Secretary, as follows:

GOVERNOR'S MESSAGE.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, January 12, 1915.

Gentlemen of the Senate and General Assembly:

But few differences of importance can be discovered in the platforms adopted by our two great political parties at their recent conventions, and, therefore, in fulfilling pledges it should not be found difficult for party representatives to work in har-

mony. Members of both parties must realize that the election is over, and that they are now units of a legislative body, whose aim should be to secure by co-operation the best results from its session, and it should make no difference in action that one party did or did not make a specific promise upon any particular subject. The honest desire to live up to his oath of office is the sole motive which should actuate each member. I, therefore, look to the members of both parties to redeem their party promises, and I ask that each shall aid and not hinder the other in so doing. You may be sure of my assistance in all legislation for the good of our people.

The few subjects to which I propose to direct your attention nearly all come under the head of unfinished business, and are mainly of a financial nature. The first relates to the reorganization or consolidation of State boards and commissions with a view to economy and a higher degree of efficiency in operation. A special investigation of this subject was hardly necessary to convince anyone who has had experience with our State government that commissions and departments have increased beyond necessity and reason, and the mere calling attention by Governor Wilson in his message of 1912 to the wasteful manner in which the government was being conducted should have been sufficient to produce a remedy. A commission recommended by that message to study the subject has presented two reports, and as its investigations are not yet concluded, a further report may be expected at this session. The commission has performed its duties in a businesslike manner, and the conclusions already reached and recommendations made are of great interest and value, furnishing the ground work or foundation plan for the rearrangement and simplification of many of our methods of government, and in many cases the detail for the structure which should be erected thereon. Believing that these recommendations should be enacted into law, I urged such action in two messages to the Legislature at its last session. Failure to act did not convince me I was wrong, and recent events have confirmed my opinion that our citizens want this legislation. I am not so certain as the commission appears to be that their reorganization

plans will result in a large reduction in State expenses, but I do believe some saving will follow, and that they will greatly promote efficiency, and while the total amount expended may not be materially less, better results will surely be secured for every dollar spent. With the facts squarely before us, it is our duty to act with decision and promptness.

The annual report of the State Board of Equalization of Taxes, recently filed with me, shows an increase of over seventy-five million dollars in the total valuation of property for taxation, exclusive of the stocks of banks and trust companies and railroad property, and that, notwithstanding this increase in valuation, the average tax rate of our municipalities is twenty-seven points higher than last year. I know that the great majority of our citizens are willing to bear their just share of the fair cost of government, but they rightfully object to excessive expenses and inequality in assessment. The attention of Legislatures has frequently been called to high and increasing tax burdens, and I venture to refer to the subject again and to reiterate my opinion that the difficulty is largely due to the unwise and improper method of selecting assessors and to the fact that in many instances the compensation they receive is insufficient to secure the services of competent men. The choice of assessors by election usually brings them and their office into politics. We shall never obtain relief unless we clean up the source of the trouble, and I renew my recommendations that assessors be no longer elected, but be appointed under Civil Service rules for assessment districts; that they be paid proper salaries; that their assessments be made under uniform rules to be prepared by some higher tax authority; that their tax lists be open to inspection before confirmation, and that some appellate board be given power to hear appeals from the valuation proposed, after which the tax lists may be finally made up and filed. I commend this highly important matter to your most careful thought, with the earnest hope that a satisfactory solution of the problem will be reached before you adjourn. I warn you that in your attempt to provide this remedy you will encounter the active opposition

of nearly every tax assessor, because he will exert all his influence to prevent the loss of his office.

I have been strongly opposed to legislation which compels municipal expenditure for higher salaries or for any other purpose without requiring the consent of municipal governing bodies. I am not satisfied with legislation of this character, even when it provides that the act shall remain inoperative until accepted by popular vote, unless in the first instance it gives the right and imposes the duty upon governing bodies of approving the proposed expenditure. Those charged with the administration of municipal affairs should know best how the taxpayers' money should be expended, and the responsibility for deciding should be placed upon them before referring it to the people for their approval. I am also opposed to legislation basing appropriations or expenditures upon a percentage of city or county ratables, because of the variable and uncertain amounts to be raised thereby, and in the interest of economy and publicity I recommend that the maximum amount be definitely stated in figures. At the last session I requested that several bills be recalled from my hands, and I vetoed others which did not meet these views, and I shall follow the same course at this session.

The law has compelled me to call special elections in two Congressional districts because of vacancies occurring therein, in neither of which any real necessity existed for filling the vacancy. A special election entails great expense, and it is impossible to arouse the interest of the voters when the election is of no particular consequence. In neither of the cases to which I have referred would I have ordered an election had it been left to my judgment, and I therefore suggest to you the advisability of amending this law so as to give the Governor discretion in ordering such elections. The discretion might be limited by requiring him to order the election upon the request of the chairman of the State Committee of a political party.

The increase in population of our country has been steady, but there has been a decrease in the production of cattle (other than milch cows), sheep and hogs, and the recent scourge of mouth and hoof disease should attract our attention to the serious con-

sequences likely to follow the destruction of large numbers of our dairy and meat-producing animals. The direct money loss to the owners of the cattle destroyed is large, but it would seem that consumers of milk and meat must also suffer through higher prices likely to follow the decrease in supply, and it occurs to me that something might be done to encourage our farmers to make breeding and raising of cattle and other live stock more important and profitable. The records show that for the past three years over forty-seven thousand head of dairy cows have been imported into this State, which must have cost an average of seventy-five dollars per head. Had we met this demand by raising our own cattle at an average cost of fifty dollars to raise heifers to two years of age, the saving would be nearly one million two hundred thousand dollars, or four hundred thousand dollars a year. It would seem profitable to our milk producers to give more attention to breeding their own herds and thus secure a stock of established constitutional vigor and maximum milk production, and the shortage in meat animals could be met by raising more live stock on the farm. If farmers were to raise and slaughter meat for home consumption, then, instead of selling their calves at ten cents per pound and purchasing their supplies from the local butcher at thirty cents per pound, the high cost of living might be materially reduced. There is still much pasture and range land in this State, and there are few farms where the surplus farm produce would not fatten from two to a dozen beef cattle yearly. More grain and other feed could be raised to support more live stock, and perhaps more intensive farming is necessary to do this. When farmers are selling their milk at a price which nets them but little profit, it is not impossible that by fattening cattle and by raising sheep and hogs they could increase the returns from their farms, and materially reduce the cost of living to themselves and others, and it is sure that the raising of their own live stock would contribute largely to the reduction, if not complete elimination, of bovine tuberculosis and other animal diseases in our State. I request that you give consideration to the thought I have endeavored to present to you, with the idea that if legislation is necessary to

stimulate this industry, it may be devised. Perhaps by giving the Live Stock Commission the same powers with regard to other animals that it now has for breeding horses, a profitable advance might be made through the standardization of all live stock, or perhaps the State Agricultural College and Experiment Station and the Bureau of Animal Industry might be given wider powers, enabling them to assist the farmers in solving the problem I present.

Among the subjects of legislation which will probably be brought to your attention is the abandonment of the Morris Canal. It is not my purpose at this time to express any opinion upon the various plans suggested, but there is one feature which has appeared in bills presented to the Legislature to which I desire to refer, and that is with regard to the disposition of the money the State should receive for its interest in the canal property. I consider it improper to provide in any abandonment bill how such money should be expended, for the reason that it includes two subjects in one bill, and makes the determination of the one dependent upon the other. The vice of this kind of legislation has been condemned by our Constitution, which provides that "to avoid improper influences which may result from intermixing in one and the same act such things as have no proper relation to each other, every law shall embrace but one object." The expenditure of all money should receive the careful attention of the Legislature, and especially of its Appropriation Committee, and should not be bound up with any other subject of legislation, and at a time when we are called upon to exercise retrenchment in State expenditures, special care should be taken not to place upon the State burdens which will require large appropriations in future years for construction or maintenance. The Appropriation Committee, through its investigations and special knowledge of the needs of the State; of its departments and of its institutions, is particularly qualified to recommend the wisest means to which State funds should be devoted. For instance, the need of a Normal School in South Jersey, the enlargement of our insane asylums, and other State institutions, or the establishment of new ones, the relocation of

the State Reformatory and the removal of our State Prison, the building of new roads, the purchase of toll bridges, the development of forest reserves and water rights, measures of protection for ocean-front owners from ravages by the elements, may be the most pressing and important objects for State financial assistance. Any of these I have mentioned, and perhaps others, may be of paramount importance, but the fact cannot be properly or safely determined in consideration of or debate upon a canal abandonment bill, and, therefore, should be left to a separate and special consideration.

Recent serious damage to and destruction of our woodlands and forests by fires will cause prudent men to hesitate to invest in or continue the attempt to preserve such properties. The fires of last fall were more numerous and caused more damage than for many a preceding year, notwithstanding the State's attempt to guard against them. It is significant that during the first weeks of the hunting season the larger number and most disastrous fires occurred. For a long time prior to and during these weeks the vegetation was parched and dry because of a prolonged period of drought. It is fair to assume that many fires were started through neglect or carelessness of hunters, and it has been stated that in some cases gunners deliberately started them to drive game from the woods. Beside the vast timber loss, the cranberry farming interests suffered seriously. The State Forestry Commission has advised the exclusion of deer and rabbits from the protection of the game laws as one way to avoid the danger from fires during the usual dry season, but I am not willing to recommend so drastic a plan, because, while I feel that with proper care and caution by hunters many of the fires could have been avoided, the particularly dry condition of the underbrush and dead leaves in the woods and forests last fall contributed to the danger. I do believe, however, that this State should adopt the plan, which in other States seems to have worked well, of giving the Governor power to suspend the hunting season when in times of drought the condition of the forests and fields enhance the possibility of fires until rainfall makes it safe for them to be entered.

Complaint has been made that under the so-called Chancellor-Sheriff jury law of 1913 it has at times been found impossible to secure a full grand jury membership, because the law provides for drawing no more than twenty-four names by the sheriff and jury commissioners. It frequently happens that of the number so drawn some are absent from the State and cannot be summoned; others are ill, and others are ineligible. Further, it is the intention of the act that no jury commissioner shall be of the same political party as the sheriff of his county, but jury commissioners are appointed for one year, and there is no direct provision for vacating the office upon the election of a sheriff belonging to the same party. The Chancellor can only carry out the spirit of the act in this particular by removing the commissioner before the expiration of the term for which he was appointed. The act in question was adopted by the people at a referendum election, and ought not be altered in any respect unless the amendment will serve to preserve its character and increase its efficiency to accomplish the purpose for which it was enacted. I therefore recommend that the law be amended so as to provide for drawing more than the number of names finally required for grand jurors, and that the presiding justice at the drawing be empowered to strike from the list those unable or ineligible to serve, and also that the term of every jury commissioner shall automatically expire upon the assumption of office of a sheriff belonging to the same political party as the commissioner.

In my inaugural message I directed attention to the volume of useless legislative bills introduced and to the unnecessarily large number of laws enacted annually, and I commended the proposition to place a time limit on the presentation of bills, and to permit a reasonable period to elapse between their introduction and consideration. The favorable reception of this plan by the Legislature of nineteen hundred and fourteen resulted in a book of laws two hundred pages less than of the preceding year, containing one hundred and fifteen fewer laws than were enacted at the regular and special sessions of nineteen hundred and thirteen. This record can surely be equalled and possibly excelled

by adopting the same rules with regard to the introduction and consideration of bills, and, also, by a strict attention to your duties, the session can be shortened. Nothing will please our people more than a short, businesslike session. This is quite possible, because the Legislatures of the last three of four years have disposed of practically all matters for the public good which have been awaiting action, and the few which you may feel require consideration can be disposed of in a short time, giving them the thoughtful, deliberate attention to which they are entitled.

JAMES F. FIELDER,
Governor.

On motion of Mr. Runyon, the reading of the Governor's message was dispensed with, and the message ordered spread in full upon the minutes.

A message from the Governor was received as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, January 12th, 1915.

To the Legislature:

The third report of the Commission known as the Economy and Efficiency Commission, appointed pursuant to Joint Resolution No. 6, approved April 1st, 1912, has been presented to me, accompanied by a report of a firm of accountants employed by the Commission.

Believing that you will, the early days of this session, consider the legislation recommended in the previous reports of this Commission, I transmit these reports to you at once, so that they may be promptly printed for your information.

Respectfully,

JAMES F. FIELDER,
Governor.

[SEAL.]

Attest:

L. EDWARD HERRMANN,
Secretary to the Governor.

To the Governor and Legislature of the State of New Jersey:

Transmitting the Third Report of the Commission Upon the Reorganization and Consolidation of Different Departments of the State Government whose Functions are Inter-related (the Economy and Efficiency Commission), authorized by Joint Resolution No. 6, approved April 1st, 1912.

Likewise transmitting, and attached hereto as a part of the above-mentioned report, a supplementary report of Price, Waterhouse & Co., expert chartered accountants, as sustaining the Economy and Efficiency Commission in a survey of specific conclusions and recommendations.

Respectfully submitted,

THE ECONOMY AND EFFICIENCY COMMISSION,

Per HOWARD B. TINDELL,

Clerk.

To the Senate and General Assembly of the State of New Jersey:

The Commission to report upon "The best means to consolidate various boards and to broaden the powers in one central board or boards" has been in existence since July, 1912, under authorization of the following resolution:

> "WHEREAS, In the interest of economy and greater concentration of work along the same general lines it is considered possible to consolidate different departments of the State government whose separate duties are now intimately related;
>
> "WHEREAS, It is impossible for the Legislature during the busy work of a session to properly prepare a plan that would thoroughly cover this large subject in the most practical way; therefore,
>
> "*Be it Resolved,* That a commission of seven be appointed for the purpose of considering the best means to consolidate various boards and to broaden the powers in one central board or boards.
>
> "Said commission shall consist of two members of the Senate, to be appointed by the President of the Senate; two members of the House of Assembly, to be appointed by the Speaker of the House of Assembly, and three citizens of the State of New Jersey, to be appointed by the Governor, such commission to report to the next session of the Legislature their recommendations on this general subject." (*Laws of N. J., 1912, pp. 945, 946.*)

It must be fully understood by the above that the final recom-

mendations of this Commission have been of necessity under the authority of the resolution and primarily confined to the question of concentrating responsibilities and reducing expenses by businesslike consolidation, and could not deal in any considerable extent with the question of appropriations, as allowed by the Appropriation Committee.

The personnel of the Commission has changed to some extent each year, owing to the expiration of the terms of members of the Legislature, who have been appointed to the Board. The membership of a majority of the Commission, however, has not changed since its inception.

The Commission has already made two reports to the Legislature in which various recommendations were made; the reasons therefor clearly analyzed and actual legislative acts accompanied the reports, which were in every case duly introduced in the Legislature. The actual net legislative results accruing from the labor of the Commission have been disappointing, both to the Commission and, we firmly believe, to the people of the State.

The Commissioners have only made recommendations after most careful inquiry. In every case members of the boards or commissions affected have been called before the Commission and their testimony taken. In some cases they have testified several times. Not one recommendation has been made to the Legislature that has not received the unanimous endorsement of the entire Commission.

While the Commission thoroughly appreciates that the work of possible consolidations has only been begun by the ground covered in our two previous reports, at the same time the adoption through Legislative enactment of those recommendations in themselves would have been a strong start in the interests of efficiency and economy, and would have given much encouragement for the pressing onward of the work. We feel that it should be unnecessary for the Commission to emphatically state that all these recommendations have been made without consideration of political effect; that men of all parties are affected, and that the entire activity of the Commission, which has during its life been both Republican and Democratic in its personnel, has been to conduct its inquiries on a purely nonpartison basis.

In further support of this we might, however, call attention to the one fact that the recommendations to the Legislature of 1913, when the Commission was Republican in its personnel, were all re-adopted in the recommendations of 1914, together with the work of further inquiry, when the Commission was Democratic in its personnel.

The members of this Commission are all busy men, and while they are intensely interested in this work, and have through their investigations been more and more impressed with its importance to the people of the State, still they have reached the conclusion that the Legislature should first show some disposition to meet the demand of the public, irrespective of political affiliation, before they involve the State in further expense, which, of course, is necessary in pressing departmental investigations.

The Commission likewise felt that perhaps one of the possible reasons for nonenactment was that the consolidations recommended or that any consolidations, which naturally combined responsibilities, were considered by the Legislature as impractical or illogical. While we, through our investigations and consideration, were firmly and unanimously convinced to the contrary, at the same time, in order to endeavor to remove any such obstacle to actual enactment of these measures, if it existed, your commissioners determined to employ the services of a firm of expert business accountants or efficiency engineers to go over one or more of the consolidations previously recommended, and to report for our own and the Legislature's information their views as to the practicability of the policy we had pursued.

Acting on this determination, the firm of Price, Waterhouse & Co. was employed in November last, and the proposed consolidation forming a new Department of Conservation and Development was as a concrete example presented to them for such expert opinion.

We have pleasure in appending herewith their report.

From this it will be clearly shown that the policy pursued by your Commission meets the substantial approval of recognized expert efficiency engineers, and should remove any honest doubt, if it did exist, as to the practicability of the recommendations thus far made.

We recommend to the Legislature of 1915 all of the recommendations made heretofore with some technical changes, mostly made necessary by changes in legislation, and with some slight alterations, hereinafter explained, which the Commissioners felt might hasten the adoption of the proposed acts.

We must state very frankly, as we did at the outset, that there is much more to be accomplished. A careful investigation as to the practicability of charging to districts affected much of the inspection and examination work now borne by the State, such as Tenement House, Factory Labor, Health Inspection, Civil Service, etc.; the possible consolidation of the Motor Vehicle Department with the Department of Highways; the possible creation of a

State Board of Engineers in order to do away with the duplication of engineers employed under the present system, where every department practically has its own engineering corps; the establishment of a State printing department to take within its scope the editing of reports, etc.; the establisment of a State Supply Department made up of existing officials, in order to save by contract purchases much of the present waste of retail shopping; the collection of the direct Inheritance Tax through the County Surrogates, rather than the maintenance of an expensive department in the State government for which $80,000 was alone appropriated in 1914; the bringing under the Capitol roof all separate State interests, a number of which are expensively located in various sections of the State; the combining of all agriculture development and research under a single State department of Agriculture with a director and advisory board; the complete reorganization of the numerous charity boards in control of the State institutions, so that much of the waste of separate control could be saved to the State and many other similar consolidations and improvements.

At the same time, as previously referred to, your Commission feels that it is inadvisable for it to involve the State in the expense necessary to carry on these investigations until, as stated, the policy of the Legislature is more clearly defined, and, acting on this policy, we have not touched at all the supplementary apropriation allowed us by the last Legislature. The appropriation made for the continuation of the work from November first last is likewise practically untouched further than clerical expenses, with the exception of the sum necessary to secure the expert report heretofore referred to.

We are, therefore, re-recommending the passage of the various measures presented in our reports of 1913 and 1914, as follows:

1. Creating a Department of Conservation and Development by the consolidation of the State Geological Survey, the Forest Park Reservation Commission, the State Water-Supply Commission, the State Museum Commission, Washington Crossing Park Commission and the Fort Nonsense Commission.
2. Creating a Department of Commerce and Navigation by the consolidation of the New Jersey Harbor Commission, New Jersey Ship Canal Commission, Board of Riparian Commission, Department of Inland Waterways and the Inspectors of Power Vessels.

3. Creating a Department of Shell Fisheries by the consolidation of the Bureau of Shell Fisheries, the New Jersey State Oyster Commission, the Oyster Commission of Atlantic County, the Oyster Commission of Ocean County and the Shark River Commission.
4. A reorganization of the Board of Health by supplementing a Director of Health in the place of five paid commissioners, and the addition of an advisory board.
5. Consolidating the State Board of Assessors and the State Board of Equalization of Taxes, providing that the new board shall consist of six members, with the proviso that the board can divide into courts of three for the purpose of hearing appeals, etc.
6. Transferring the engineers of the present Department of the Board of Assessors to the Board of Utility Commission, but in no way interfering with the work of revaluation and assessments now in charge of the engineering corps.
7. Providing that the new organization of the Board of Health may enforce State laws in local districts.
8. Creating a Department of Labor and Industry by consolidating the Department of Labor and the Bureau of Industrial Statistics.

In analyzing the net saving to the State through the enactment of the above measures or through any consolidations, it must always be borne in mind that it requires the abolition of a great many salaries to total a large sum in comparison to the $8,000,000 annually appropriated in New Jersey. In other words, by carrying out every practical consolidation possible, the actual net salary saving could not be enormous, because the item of salaries is not so great as the average person seems to believe. The main accomplishment anticipated, therefore, is from the standpoint of efficiency by the concentration of responsibility and the inauguration of business methods in conducting the State's affairs. Such a policy should save waste in every direction, and while it is necessary to employ proper help to carry out State business, the overlapping of responsibilities should and must cease, if our departments are reorganized under the modern system proposed. This policy likewise provides properly organized departments for the reception and administration of future projects along the lines covered.

As stated, some slight changes in the formation of these departments have been made, brought about to some extent by

legislation of last year and through further inquiry. For instance, in the Department of Conservation and Development, the State Museum Commission and the Fort Nonsense Park Commission have been added, while the State Architect's Department has been eliminated.

Then, by the creation of the Harbor Commission as a permanent commission by the Legislature of last year, and later by the consolidation with the Harbor Commission of the Ship Canal Commission, it has been thought advisable that the duties of the Board of Riparian Commission should be added to this Department, dealing with harbors, canals and waterways, rather than to the Department of Conservation and Development, which was the previous plan.

In the matter of the consolidation of the Bureau of Industrial Statistics with the Department of Labor it was deemed advisable to treat this as an entirely new department, precisely as in the other reorganizations. While careful consideration was given to the question of a merger with the addition of an advisory board as sufficient to carry out our general policy, still, in order that no possible thought of inconsistency could exist, this consolidation has been treated as the organization of a new department just the same as every other recommendation.

However, the Commission has recommended in all its suggested bills that preference be given to old experienced employees and attaches of the State government in the making up of all these new departments. The matter of appointment of the chiefs and advisory boards is entirely vested in the Governor, by and with the consent of the Senate.

Your Commission, before expending further State money and proceeding with further investigations or recommendations, will await the action of the present Legislature. As explained above, it seems unwise and unnecessary to do more until this policy has been outlined.

It is the intention of your Commission, however, before the Legislature of 1915 finally adjourns, to submit a further report as to our suggestions and plans for the continuation and completion of this work. We believe, however, that the wisdom of this policy of retrenchment has been fully demonstrated by the recommendations we have so far made, and the practicability of consolidations in order that efficient business methods be employed in the conducting of State business fully established. Sufficient practical recommendations along these lines have been made to more than demonstrate that this is reality and not theory. The

matter is, therefore, now in the hands of the Legislature, and our final report will necessarily be greatly influenced by its actions.

REPORT ON PROPOSED DEPARTMENT OF CONSERVATION AND DEVELOPMENT.

PRICE, WATERHOUSE & CO.

54 WILLIAM STREET.

NEW YORK, January 7th, 1915.

Hon. Walter E. Edge, President Economy and Efficiency Commission, Trenton, New Jersey:

DEAR SIR—Pursuant to the instructions of your Commission, we have investigated the plan proposed by it for the organization of a Department of Conservation and Development in the State of New Jersey, as outlined in a bill shortly to be introduced in the next Legislature. Our work in this matter has included a review of the minutes of the hearings held before your Commission for the purpose of inquiry into conditions in existing departments, the compilation of financial data to determine possible economies, the comparison of such data contained in the second report of your Commission with the published reports of State officials, the examination of records and minutes of the existing departments and personal discussion and conferences with the heads thereof. We have covered in this manner—

The State Water-Supply Commission,
The Forest Park Reservation Commission,
The State Geological Survey,
The Office of the Architectural Assistant to the Commissioner of Charities and Corrections,
The State Museum,
The Washington Crossing Park Commission,
The Fort Nonsense Park Commission.

During the course of our work, we have incidentally acquired a general knowledge of the plan of the Commission for a more

complete re-organization of business procedure in the State government, but the line of our inquiry has been specifically directed toward the proposed Department of Conservation and Development because the time at our disposal was somewhat limited, and it was thought better results would be secured by choosing one of the suggested departments for a fairly thorough investigation rather than to attempt a broader but less intensive examination.

We found that prior to its presentation of recommendations diligent efforts had been made by the Commission to obtain information as to the operation of existing departments, and the duties of the several officials and employees therein. The latter were examined at hearings held by the Commission in session and were invited to offer suggestions relating to the organization and work of their respective departments.

As a result of the examination which we have made, as outlined above, we believe the suggested consolidation of departments as proposed in the draft bill entitled "An act to establish a Department of Conservation and Development, etc.," can be carried out without more than the usual difficulties that must be encountered in all cases of re-organization and change, and, moreover, the proposed plan will, in our judgment, not only provide sufficient means for carrying out in an adequate manner the work in the several fields assigned to the new department, but will result in substantial economies.

We wish, however, before you have completed your consideration of the draft bill, to recommend for adoption in the proposed act, the changes enumerated below.

(1) The terms of the members of the Board of Conservation and Development should be so arranged that the term of one member would expire each year. The appointment of the members of this Board rests with the Governor and as the incumbent of that office serves for a term of three years no one governor, except in the first instance, or in cases of death or resignation, would appoint a majority of the Board. The Board would thus gain in continuity and its work would be less subject to political influences.

(2) While the members of the first Board and the first Director will be appointees of the present Governor, the Director should be immediately subject to the Board, and we suggest, therefore, the act should provide that the first Director be appointed for a term of five years and be removable at any time during this period by a

vote of a majority of the members of the Board, upon charges after a hearing thereon in the usual manner. The successor of the first Director should be appointed by the Board, should hold office during the pleasure of that body and be removable for cause at any time by a majority vote of the Board.

(3) It might be well to adopt some means for compelling reasonable attendance on the part of the Commissioners.

The above criticisms and suggestions have been discussed tentatively with the members of your Commission, and while we understand some consideration had already been given to most, if not all of them, their practical business value is admitted but they have not been incorporated in the present draft bill for reasons of expediency and on account of peculiar elements that must be considered in relation to a governmental organization.

The plan originally proposed by the Commission contained the following provisions to which we took exception. Our objections have been sustained by you and, therefore, they are listed here, without discussion, as a matter of record only:

(a) Inclusion in the proposed new department of the architectural assistant to the Commissioner of Charities and Corrections;

(b) Designation of the active head of the department as "Commissioner" instead of Director.

(c) Fixing of Director's salary at $7,000.00 instead of $6,000.00 per annum;

(d) Provision for an executive committee to consist of the heads of the sub-departments.

The question of possible economies is one that should be dealt with in the most conservative manner. It is much easier in the preliminary work of planning a re-organization to make estimates of possible savings than to realize the estimates after the re-organization has been effected. We think, therefore, that at the present stage the only safe or desirable estimates to make are those that relate to savings absolutely known to be practicable. For instance, it is reasonable to expect that a Board organized along the lines of your recommendations can supply advice and guidance for the general conduct of the department quite as well as can the existing Boards or Commissions. The proposed form of organization provides, however, for a salaried Director to carry out the instructions of the Advisory Board and to oversee the work of the department, and the amount of his

salary should be borne in mind when considering the savings from this source.

Assuming that the proposed bill becomes a law, in our opinion economies somewhat exceeding $21,000.00 may be safely predicated, from which, however, there must be deducted the $6,000.00, or such other sum as may be paid by way of salary to the Director, together with any fees, if any, paid to consultants in excess of those paid by the present organization.

This amount should, of course, be taken only as the best present estimate of what can be safely foreseen. In our opinion the most useful economies will be the result of careful administration by the Director. It is quite reasonable to expect that an experienced engineer will be able, after operating the Department for a sufficient time, to locate many points in which, by a re-direction of effort, waste and expense can be reduced. This would apply particularly to expenses other than salaries, but we feel that at the present stage of affairs the existing knowledge of possible economies of this nature is not sufficiently precise to warrant an attempt to estimate them.

It seems certain that not the least of the economies should result from the increased efficiency due to consolidation of similar interests. For example, it is apparent that the Forest Park Reservation Commission, or what will probably be the Bureau of Forestry and Parks in the new Department, will be better able, with its organization and trained officials, to deal with the problem of the purchase, design and construction of a park at Washington Crossing or Fort Nonsense, than a body of laymen with no technical training, however conscientious and zealous they may be. Moreover, the broader viewpoint of an administrator in charge of a comprehensive department will do much to promote co-ordination of work and economy of effort. Thus, if the State Geologist, in making his estimates for the year, provides for the expense of performing certain work, which is eventually completed for a smaller sum, it is only natural that he should desire to use the balance of the appropriation to carry on other work in his department which to him appears of greater importance than still other work required by, for instance, the Water-Supply Commission. The question, however, might appear in a very different light to a Director equally interested in the Survey and the Water-Supply Commission.

Although the question is, perhaps, outside the field of our appointment, we feel that we should call attention to the limitations placed upon the powers of your Commission. The joint

resolution of the Legislature under which you are working limits the authority of the Commission to "considering (and reporting upon) the best means to consolidate various boards and to broaden the powers in one central board or boards." If the recommendations already made be adopted their success will depend largely upon the organization and administration of the new departments. Without doubt any failure to realize the anticipated measure of benefit will be attributed to faults in your plan and it follows that you should be given power to at least supervise the organization of the new departments. Your work of investigation could be carried on more intelligently and the results be more conclusive if you were given power to consider and report upon appropriations for expenditures, departmental expenses, etc. We suggest, therefore, the desirability of requesting the next Legislature to broaden the powers of the Economy and Efficiency Commission and to establish it more definitely.

This report has been purposely made brief. Details of work performed to enable us to arrive at the conclusions stated herein and of possible plans of internal organization have been omitted with the intention of leaving as little as possible to distract attention from the main point at issue. We shall be glad, however, to supplement the report as far as the result of our investigation permits in any particular that the Commission may desire.

Yours very truly,

PRICE, WATERHOUSE & CO.

On motion of Mr. Runyon, the message, together with the report, was ordered received and be spread in full upon the minutes.

Mr. Runyon offered the following resolution:

Be it resolved, That the rules for the session of nineteen hundred and twelve be adopted as the rules of this House, with the following amendments and additions:

Section 35. Strike out the words "a Committee on Banks and Insurance" and insert two committees in place of this committee, to be known as "a Committee on Banks and Banking" "a Committee on Insurance."

Add two other committees, one to be known as "a Committee on Taxation" and the other as "a Committee on Social Welfare."

Change Rule 66 by expunging the word "shall" on the third line as printed in the Legislative Manual and adding after the

words "third reading" on the same printed line the words "shall, if ordered by the Speaker of the House."

Add the following new rules:

Rule 70. Any three members of a Standing Committee may report a bill.

Rule 71. Each member when introducing a bill shall submit with each copy of the bill a statement setting out the objects proposed to be accomplished by its enactment and the localities or persons the bill will effect, which statement shall be referred to the committee with the bill. An equal number of copies of such statement and bill shall be printed and a copy of the statement shall be attached to each copy of the bill. Such statements shall not exceed in length one printed page or four hundred and fifty words.

Rule 72. All resolutions, bills, amendments to bills and resolutions shall be presented in one original, together with a copy thereof, and all bills, original and copy, shall be typewritten or printed.

Rule 73. No bill or joint resolution shall be considered on third reading and final passage until seven days after the second reading thereof.

Rule 74. All Standing Committees shall meet at least once each week for the consideration of measures referred to them, and all committee hearings shall be announced in open session and advertised by posting a notice thereof in a conspicuous place in the Assembly Chamber and also at some prominent point in the main corridor of the State House.

Rule 75. After a majority of any committee has made its report on any bill or resolution, a minority of such committee may submit a report upon the same proposition, and any member of the House may move to substitute such minority report for the majority report of such committee.

Mr. Martin offered the following amendment to Mr. Runyon's resolution:

All committee meetings shall be public. A majority of members shall constitute a quorum. Each committee shall keep a Journal of its proceedings in which shall be entered the yeas and nays on questions affecting action on all bills and joint resolutions. Said Committee Journals shall be public records, and kept on file in the office of the Clerk of the House.

Which amendment, upon the calling of the roll, was lost by the following vote:

The Speaker presented the following communication:

STATE OF NEW JERSEY,
OFFICE OF THE COMPTROLLER OF THE TREASURY,
TRENTON, January 12, 1915.

Hon. Carlton Godfrey, Speaker, House of Assembly, Trenton, N. J.

DEAR SIR—I have the honor to inform you that the contract for the current printing for both Houses during the current session has been awarded to the MacCrellish and Quigley Company of this city.

Very respectfully,
E. I. EDWARDS,
Comptroller.

A message was received from the Senate, by the hands of its Secretary, as follows:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 12th, 1915.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill:

Senate Bill No. 12, entitled "An act to provide for the distribution of legislative bills, and certain other legislative documents, to the applicants paying therefor,"

In which the concurrence of the House of Assembly is requested.

FRANCIS B. DAVIS,
Secretary of the Senate.

Senate Bill No. 12 was taken up, read a first time by its title, and, on motion of Mr. Runyon, the rules were suspended and said bill was ordered to a second reading without reference.

Which motion was carried by a *viva voce* vote.

Senate Bill No. 12 was then taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Runyon again moved that the rules be suspended, and that Senate Bill No. 12 be placed upon third reading and final passage immediately.

Which motion was carried by a *viva voce* vote.

Said Senate Bill No. 12 was then taken up under suspension of the rules, read a third time, and passed by the following vote:

In the affirmative were—

Messrs. Agnew A. M., Agnew J. C., Anderson, Barbour, Barradale, Berry, Boland, Borden, Colgan, Conrad, Crosby, Dalrymple, DeCamp, De Yoe, Dolan, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Henry, Herrick, Hughes, Hunter, Iobst, Johnson H. D., Johnson J. J., Kates, Kays, LaPointe, Loblein, Martin, Morgan, Mutchler, Oliphant, Ostrom, Pancoast, Peacock, Pierson, Pilgrim, Quinn, Randall, Runyon, Schoen, Scudder, Sheppard, Singer, Smith, Stevens, Sullivan, Thomson, Titus, Vannote, Weart, West, Whitman, Wolf, Wolverton, Zeiger—60.

In the negative—None.

Mr. Runyon moved that the Speaker sign Senate Bill No. 12 immediately, and that the same leave the House forthwith.

Which motion was adopted.

Mr. Martin offered the following resolution:

WHEREAS, The Court of Errors and Appeals of this State has recently handed down a decision in the case involving the fixing of a gas rate for the Paterson-Passaic district by the Public Utility Commissioners; and

WHEREAS, Application has been made by counsel for the said Board of Public Utility Commissioners and by the counsel of the city of Paterson and the city of Passaic, who are parties to the litigation, for a reopening and rehearing of this case; and

WHEREAS, It appears the decision in said case was by a divided vote, six judges voting in favor and four judges against, and was therefore by a minority of the court, and it is possible to have the case now heard so that thirteen judges instead of ten may participate in the decision; and

WHEREAS, This case is of the very greatest public importance and involves the whole policy of the regulation of public utilities recently inaugurated by the State; therefore, be it

Resolved by the Senate and General Assembly of the State of New Jersey, That the Court of Errors and Appeals be and the said court is hereby respectfully requested, in view of the gravity of the interests involved, to grant the petition of the counsel of the Public Utilities Commission and of the cities of Paterson and Passaic for a reopening and a reargument of the said case.

Mr. Runyon moved that the resolution be referred to the Committee on Judiciary.

Which motion, the ayes and nays being called, was carried by he following vote:

In the affirmative were—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Hughes, Hunter, Johnson H. D., Kates, Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Randall, Runyon, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—38.

In the negative were—

Messrs. Agnew A. M., Agnew J. C., Anderson, Boland, Borden, Colgan, De Yoe, Dolan, Henry, Herrick, Iobst, Johnson J. J., Kays, LaPointe, Loblein, Martin, Ostrom, Quinn, Singer, Sullivan, Vannote, Zeiger—22.

Mr. LaPointe, on leave, introduced

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 12th, 1915.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following Concurrent resolution:

WHEREAS, There has been widespread agitation as to the

present ineffectual system of keeping our State highways in proper repair; and

WHEREAS, The laws regulating the State Highway Department are very complex because of the various changes and amendments from time to time; and

WHEREAS, The present system of control in the road department has been subject to considerable criticism, especially in the case of the proper distribution of the automobile license income; and

WHEREAS, A complete rearrangement of this system seems to be advisable in order that present abuses be properly corrected and under effective control; therefore, be it

Resolved by the Senate (the House of Assembly concurring), That a joint committee, consisting of three Senators, appointed by the President of the Senate, and five members of the House of Assembly, appointed by the Speaker of the House of Assembly, be named for the purpose of generally considering the present existing statutes on the subject of highways and their maintenance, to report to the present session of the Legislature with a law or laws calculated to properly correct existing evils.

Mr. Martin offered the following memorial, and moved that the Clerk read the same and that it be spread in full upon the minutes,

Which, on motion, was adopted:

JERSEY CITY, N. J., January 18th, 1915.

To the Hon. Carlton Godfrey, Speaker of the General Assembly, and to the Honorable, the Members of the General Assembly, State of New Jersey:

The city of Jersey City has suffered to a greater extent than any other part of the State, because of the maintenance of the Morris canal, traversing, as it does, eight miles of territory therein.

If, in your judgment, the canal should be abandoned, then in the enactment of such legislation by you, the city of Jersey City feels that consideration should be shown it, to the end that it may suffer no greater loss and be compensated for its previous loss, by receiving the portions of the canal property as shown by the plan accompanying this letter.

To each member of the House of Assembly the city of Jersey City submits a copy of the resolution, adopted by the Commission of Jersey City, at a regular meeting held January 14th, 1915, together with detail plan of proposed abandonment of the canal, particularly in Jersey City.

The adoption of this proposed plan, or some plan along similar lines, with particular reference to the interest of Jersey City, will provide the remedy for the evident injury that Jersey City has suffered in the past, and the people of Jersey City hopefully look to this Legislature of 1915 for this needed relief.

Your Honorable Body will, undoubtedly, give hearings on any legislation proposed for the abandonment of the Morris canal, and Jersey City respectfully asks to present its argument when the hearings are called, at which time detailed drawings will be submitted, showing the benefits to accrue to the State and this city upon the adoption of the suggested scheme of abandonment.

By order of the Board of Commissioners of Jersey City.

M. I. FAGEN,
City Clerk.

The Speaker referred the above memorial, together with the pamphlet, to the Committee on Railroads and Canals.

Mr. Quinn submitted the annual report of the New Jersey Harbor Commission for 1914:

NEW JERSEY HARBOR COMMISSION,

Mr. Smith offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to the Hon. Fred Prout, of Essex county, a former member of this House.

The Speaker requested that the chairmen of the different committees report all bills from their committees as soon as possible, so that there would be no delay in the workings of the House.

The Speaker presented the following letter which was read by the Clerk:

January 13th, 1915.

Hon. Carlton Godfrey, Trenton, New Jersey.

My Dear Mr. Godfrey—I noticed yesterday that you had appointed me to the Committee on Revision of Laws. As you also signally honored me with appointment to the Judiciary Committee, I feel that it might be proper for me to ask to be relieved from my membership on the Committee for Revision of Laws, as I understand that both it and the Judiciary Committee are very important, and, as the Judiciary Committee will consume so much time, I respectfully ask to be relieved of duty on the Committee for Revision of Laws; this, however, with your consent and approval.

I must take this opportunity of thanking you for giving me such high place in the operations of the House of Assembly, and congratulate you upon the excellent advent you made in the Speaker's chair. I believe there opens before us a very successful and satisfactory session of the House.

Your respectfully,

CHARLES C. PILGRIM.

The Speaker announced that he had accepted the resignation of Mr. Pilgrim and had appointed Mr. Titus to the vacancy.

Mr. Martin moved that the above proceedings be spread in full upon the minutes of the House.

Which, on motion, was adopted.

Absent—

Messrs. Agnew A. M., Anderson, Randall—3.

Mr. Runyon moved that the reading of the minutes be dispensed with, and the same as printed in Part I, Assembly Minutes, be approved.

Which motion was adopted.

Mr. Runyon offered the following resolution, which was read by the Clerk:

WHEREAS, It appears that in the borough of Roosevelt, in the county of Middlsex, divers persons have been either killed or wounded at the hands of certain other persons claiming authority in the law as deputy sheriffs of said county, and making use of firearms; and

WHEREAS, It has come to be a matter of common belief that the persons so acting as aforesaid largely exceeded their lawful authority in using firearms with the result as aforesaid; therefore, be it

Resolved, That a committee of five members of this House be appointed by the Speaker to investigate the circumstances surrounding the said disorders and to report to this House as soon

as may be, first, whether or not public officials have performed the duties of their respective offices in relation thereto in a proper manner, and, second, whether or not any additional legislation is proper or necessary for the prevention of such deplorable acts in the future.

Mr. Runyon moved that the resolution be referred to the Committee on Judiciary.

Which motion was adopted.

Mr. Quinn offered the following resolution, which was read by the Clerk:

WHEREAS, Certain labor troubles appear to exist between the employers of labor and the unemployed, in or about the vicinity of Roosevelt, Middlesex county, New Jersey, whereby it is reported that the wages which the employees have been receiving were scant and poor, and as a result it was next to impossible for the workers to obtain the bare necessities to sustain life, consequently, living conditions approached the borders of frightful misery and the employees, unable longer to endure the burden, appealed to their employers for an adequate wage rate; their request was denied; a "strike" resulted; the employers called upon the sheriff of the county for deputies, and he, according to reports in the public press, appointed for duty as such deputies men residing without his county, who were paid by and placed under the immediate direction and control of the said employers of labor; it further appears that such deputies were armed with clubs, revolvers and rifles, and that the said deputies unnecessarily, atrociously and murderously attacked the said strikers, or employees, with their said weapons and killed and maimed a number of the said employees; therefore, be it

Resolved, That a committee of five members of the House of Assembly be appointed by the Speaker to make a full, complete and thorough investigation into the truth of the said wage question, the living conditions of said employees, the cause of the troubles and the differences existing between the employers and the employees; the appointing, the manner of hiring and the control of the said deputies; the killing and maiming of said employees; and to make full inquiry into all the matters and things appertaining to said troubles; the said committee shall have power to sit during the session of the House of Assembly and after adjournment thereof; to summon witnesses; to compel the production of books and papers; to appoint special counsel and other necessary officers, and they are instructed to report to this House of Assembly.

Mr. Runyon moved that the resolution be referred to the Committee on Judiciary.

Which motion was adopted.

A message was received from the Governor, by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: January 25th, 1915.

I would direct your attention to an act of Congress, passed May 8th, 1914, known as the "Agricultural Extension Act," which provides that in order to aid in diffusing useful and practical information on subjects relating to argiculture and home economics and to encourage the application of the same, there may be inaugurated, in connection with our State Agricultural College, agricultural extension work which shall be carried on in co-operation with the United States Department of Agriculture.

Section three of said act of Congress is as follows:

"Sec. 3. That for the purpose of paying the expenses of said co-operative agricultural extension work and the necessary printing and distributing of information in connection with the same there is permanently appropriated out of any money in the treasury not otherwise appropriated, the sum of $480,000 for each year, $10,000 of which shall be paid annually, in the manner hereinafter provided, to each State which shall by action of its Legislature assent to the provisions of this act; *provided,* that payment of such installments of the appropriation hereinbefore made as shall become due to any State before the adjournment of the regular session of the Legislature meeting next after the passage of this act may, in the absence of prior legislative assent, be made upon the assent of the Governor thereof, duly certified to the Secretary of the Treasury; *provided, further,* that there is also appropriated an additional sum of $600,000 for the fiscal year following that in which the foregoing appropriation first becomes available, and for each year thereafter for seven years a sum exceeding by $500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated for each year the sum of $4,100,000 in addition to the sum of $480,000 hereinbefore provided; *provided, further,* that before the funds herein appropriated shall become available to any college for any fiscal year, plans for the work to be carried on under this act shall be submitted by the proper officials of each college and approved by the Secretary of Agriculture.

Such additional sums shall be used only for the purposes hereinbefore stated, and shall be allotted annually to each State by the Secretary of Agriculture and paid in the manner hereinbefore provided, in the proportion which the rural population of each State bears to the total rural population of all the States as determined by the next preceding Federal census; *provided, further*, that no payment out of the additional appropriation herein provided shall be made in any year to any State until an equal sum has been appropriated for that year by the Legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of the co-operative agricultural extension work provided for in this act."

The Legislature of last year having adjourned prior to the passage of this Federal statute, I gave my assent to the provisions of the act in order that we might obtain, so soon as possible, the benefit of the ten thousand dollars annually appropriated, and, accordingly, Rutgers College, which is our State Agricultural College, will receive that sum this year, but this same amount cannot be secured for future years, unless the Legislature will give its assent to the act as thereby required.

Instruction in scientific agriculture and in home economics, carried directly to our rural population, should result in great benefit to the whole State. This was one of the subjects to which I referred in my inaugural message of last year and I am much pleased that the State can receive Federal aid for the important work I then advocated. I now recommend the passage of a resolution giving legislative assent to the provisions of the Congressional act and authorizing Rutgers College to receive such money as may be apportioned to our State from the Federal fund. Such action on your part will entitle us to receive ten thousand dollars annually, but we cannot obtain our proportion of the additional appropriations mentioned in the act, or any part thereof, unless an equal sum is provided either by the Legislature, or by county or local authority, or by individual contribution. This presents another question which I ask you to consider at this session, if you desire to receive the full benefits of the act. It is estimated that we will be entitled to receive from the Federal treasury, an amount increasing each year from seventeen thou-

sand dollars to sixty-two thousand dollars, if we can duplicate such appropriations.

Very respectfully,

(SEAL) JAMES F. FIELDER,

Attest: *Governor.*

L. EDWARD HERRMANN,

Secretary to the Governor.

Favorably, without amendment;

And

Assembly Bill No. 126, entitled "An act to amend an act entitled 'An act for the protection of certain kinds of birds, game and fish, to regulate their method of capture and provide open and close seasons for such capture and possession (Revision of 1903),' approved April fourteenth, one thousand nine hundred and three,"

With the following proposed committee amendment:

Section 1, line 12, by adding the following after the period following the word "fish": The said board is hereby authorized, in their discretion, to issue permits to catch suckers, catfish, carp and eels from August 15th to November 15th, both dates inclusive of each year, by or with the use of what is commonly known as a fish basket with wing walls, the bottom of such fish basket shall be made of wooden slats set not less than three-eighths of

an inch apart, when wet, and having the edge of each slat well rounded. These slats shall be so arranged as to make possible the removal or practical removal of at least three-quarters of the bottom of any basket that could be used for fishing, and the same shall be actually removed from said basket or so adjusted as to make the catching of a fish by said basket an impossibility during that part of each day beginning at one hour before sunrise and continuing to one hour before sunset. Each and every game fish that may come into any basket thus operated shall be immediately released unharmed in the water below said basket. Any person who is the holder of a permit of either kind mentioned in this section who shall fail to strictly comply with all the provisions of this section relating to the catching of fish under such permit shall be liable to a penalty of fifty dollars.

Mr. Conrad moved that the said amendment be adopted.

Which motion was adopted.

The same gentleman also reported the following:

CONCURRENT RESOLUTIONS requesting the Senators and Representatives in Congress from this State to vote to repeal that part of chapter one hundred and forty-five of the Statutes of the United States of America, passed at the third session of the Sixty-second Congress, relating to migratory game and insectivorous birds, entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June thirtieth, one thousand nine hundred and thirteen," approved March fourth, one thousand nine hundred and thirteen, under the head of Bureau of Biological Survey, and for the passage of other enactments concerning the same.

BE IT RESOLVED *by the House of Assembly (the Senate concurring)*:

1. That the Senators and Representatives in Congress from the State of New Jersey be and they are hereby requested to vote for the passage of an act repealing that part of chapter one hundred and forty-five of the Statutes of the United States of America, passed at the third session of the Sixty-second Congress, entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June thirtieth, one thousand nine hundred and thirteen," approved March fourth, one thousand nine hundred and thirteen, under the head of Bureau of Biological Survey, which said section sought to be repealed reads as follows:

"All wild geese, wild swans, brant, wild ducks, snipe, plover, woodcock, rail, wild pigeons, and all other migratory game and insectivorous birds which in their northern and southern migrations pass through or do not remain permanently the entire year within the borders of any State or territory, shall hereafter be deemed to be within the custody and protection of the Government of the United States, and shall not be destroyed or taken contrary to regulations hereinafter provided for."

2. *And be it further Resolved,* That the Senators and Representatives in Congress be also requested to vote for a Federal Act providing only for the time of the open season in this State for such migratory game and insectivorous birds, and leaving the regulation of the same during the open season to the State authorities.

3. *And be it further Resolved,* That the Governor be requested to transmit to each of our Senators and Representatives in Congress a certified copy of these concurrent resolutions.

Favorably, without amendment.

Mr. Stevens moved that the said resolution be adopted.

Which motion was adopted.

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision of Laws.

The same gentleman, on leave, introduced

Assembly Bill No. 217, entitled "An act to repeal section seven of an act entitled 'An act to provide a commission to secure plans and designs for a memorial bridge to the memory of John Woolman, to connect the city of Burlington, in the State of New Jersey, with the city of Bristol, in the State of Pennsylvania,' which act was approved April fifteenth, one thousand nine hundred and fourteen,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Municipal Corporations.

Mr. Sheppard, on leave, introduced

Assembly Joint Resolution No. 4, entitled "A joint resolution providing for the appointment of a commission to revise and codify the laws of this State relating to the protection of fish, game and birds, or in any manner relating or prohibiting the taking or possession of the same,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Game and Fish.

Mr. Kays, on leave, introduced

Assembly Bill No. 218, entitled "An act prohibiting in certain cases the making of contracts for pavements protected in whole or in part by letters patent of the United States or by an application therefor, by any public body in any county, city, town, township, borough or village of this State,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Highways.

Mr. Quinn presented the following memorial:

To the Honorable Senate and Assembly of the State of New Jersey:

GENTLEMEN—We, the undersigned, representing the members of organized labor of the State of New Jersey, herewith respect-

fully present to you this memorial, which in part expresses our wishes and desires on legislation affecting the wage-earners of our State.

In it we express our wants as to what we think is of benefit to the workers of our great industrial State, and we hope that all contained in this memorial will be given due consideration.

WHEREAS, The proposed bills urged by the Economy and Efficiency Commission, and which are to be introduced in the next Legislature, provide for the abolishment of the present Department of Labor and Bureau of Statistics, and for the creation of a Department of Labor and Industry with a chief and a non-salaried advisory board of eight (8) members (some of whom are to be representatives of labor).

While we agree that the Bureau of Statistics should be abolished and merged with the Department of Labor, we are opposed to the abolishment of the present Department of Labor, which is one of the most important branches of the State government. In our opinion the abolishment of the two departments, and the creation of a single new department, to be called the Department of Labor and Industry, with a chief and advisory board of non-salaried commissioners, will not effect the purpose intended by the Economy and Efficiency Commission.

We are unalterably opposed to the creation of an unpaid advisory board such as is proposed by the commission, believing it would mean a division of authority, which is not in accord with modern methods, and further because of the impossibility of getting capable men to act in that capacity who would devote their knowledge and time without substantial compensation for their services.

A change in the structure of the Department of Labor, such as contemplated by the Economy and Efficiency Commission, is a matter of serious and vital concern to the workers of the State, who, after all, are perhaps the best judges of the merits of this or any other department which has to do with the safety of their lives, limbs and health.

To the unbiased observer it must seem that the commission should have consulted with recognized representatives of wage-workers as to the advisability or desirability of the move before recommending action. So far as we know no person claiming to be a representative of the workers of our State has been consulted in this matter, so that the action of the commission is that of men who are perhaps little acquainted with the actual merits of the proposed change.

In our opinion, if any change is to be made at all, the Bureau of Statistics should be merged with the Department of Labor, which already is equipped with part of the machinery necessary to perform the service now required of that bureau. To finance such a change, the Department of Labor should be given a portion of the amount now expended by the Bureau of Statistics annually. The other portion annually expended by the Bureau of Statistics, with whatever additional amount may be necessary, should be used for a paid commission to supervise and enforce the payments of the workmen's compensation for injury and death. In conjunction with such a change, a law should be enacted requiring every employer of labor to insure his or its employees.

Employers should be forced to insure under one of the four systems enumerated in a proposed bill, one of which is a State insurance fund.

We contend that the State owes it to its workers to see that each gets such compensation as the law allows, and to which they are justly entitled, and without delay. This, unfortunately, is not the case to-day. To the contrary, it is a well-known fact that only about 60 per centum of the compensation is paid to which injured workers are entitled.

The liability companies collect the premiums from the employers and get as much as possible from them. On the other hand, they pay as little as possible to those who are injured or to the dependents of those killed; they also delay payments as long as possible, practically starving the injured into submission, or, in other words, to take what they offer, risking the chance of being sued for what is justly due. In many cases this is done for the reason that the victim has no one to advise him, or nowhere to go for advice. Money for a law suit with its cost for expert medical testimony and lawyers, he has none. If a lawyer does take the case and charges only his just fees and costs, hardly anything worth while remains.

We are therefore opposed to any makeshift legislation on the lines contemplated by the Economy and Efficiency Commission, or any other commission. What we want in part is herewith set forth:

The Department of Labor to be left as at present constituted; the commissioner to be empowered to employ additional inspectors and such other assistants as in his judgment may seem or be necessary.

Merging the Bureau of Statistics with the Department of Labor.

Creating a salaried commission or bureau to administer and supervise the payment of all compensation for injury or death, and all settlements to be approved by the commission.

Compulsory insurance by employers of all their workers; failing to do so, the employer should be penalized.

The commission to approve the insurance, which should either be self-insurance, with security deposited with the commission; or with mutual or liability companies approved by the commission; or with a State insurance fund to be created.

The commission to be in continuous session every working day; to have power to appoint necessary deputies and office force and a secretary.

The commission to consist of three (3) members, appointed by the Governor with approval of the Senate, and the Commissioner of Labor and State Treasurer to be *ex officio* members thereof.

We desire amendment of the present Liability and Compensation law so as to include compensation for occupational diseases contracted in the course of employment; also that the schedule of compensation be increased both in amount per week and in the number of weeks compensation is to be paid in case of injury or death.

We also desire the elimination of that part of the law which denies compensation to dependents of aliens not residing in the United States.

We desire the enactment of an anti-injunction law on the lines of the one now in operation in the State of Massachusetts.

We desire the enactment of a law giving every worker "one day's rest in seven," along the lines of laws now in force in the States of New York and Massachusetts.

We desire the enactment of a "prevailing Rate of Wages law" to be paid in the locality where the work is performed.

We desire the enactment of a law standardizing sanitary conditions in factories and workshops, including the installation of toilet facilities, wash and dressing rooms, bubble fountains, etc.

We desire the enactment of a law which will compel employers having labor troubles in their plants to so state in all their advertisements for help, to the end that no worker may unknowingly and against his will act as a strikebreaker, nor, after being brought into the plant under false pretenses, be forcibly detained.

We desire the enactment of a law regulating the hiring of special deputies in time of strikes; those hired to be residents of the locality or county where the labor or other troubles prevail;

and further, that no sheriff or other public peace officer be permitted to hire or swear in any person furnished by a private detective agency.

We desire the enactment of a law which forbids the hiring by private corporations or persons of any armed guards in case of labor troubles, as these guards, who are generally furnished by so-called detective agencies, are nothing less than thugs of the worst order, who depend for their livelihood on labor troubles, which in a good many instances they themselves create and always try to prolong. They have absolutely no regard for a human life and are permitted to act contrary to law by sheriffs of some counties who are only too willing to shirk the responsibility of preserving the public peace in time of labor troubles, and place it in the hands of irresponsible thugs and their masters.

We desire the enactment of a law placing the Building Trades under the Department of Labor.

We desire the passage of an amendment to the present law regulating the hours of work for females, to the end that the hours must be consecutive.

Filing of the hours of labor with the Department of Labor.

The finding of any female in the workroom of any establishment outside of the hours so filed to constitute a violation of the law.

A reasonable time to be permitted for preparation to start and at quitting time.

Without the above the present law is not enforceable.

We desire an enactment of an amendment to the eight-hour law which will provide that any person, firm, corporation or others having a contract with the State or a county or municipality in the State, who shall violate or permit to be violated with the eight-hour clause of said law, that such contract be declared null and void.

State Constabulary—

There is no need for a State constabulary or police in our State. There is not a single county in our State in which the sheriff, who properly performs his duty, cannot keep order and compel obedience to the law without the aid of a State constabulary or gunmen furnished by so-called detective agencies. It is our opinion that the advocates of a State constabulary have in mind the saddling of the cost of maintaining order in the different counties onto the State, which appears to be the only excuse for the creation of this "standing army." It is

unnecessary, and would be idle most of the time. It is costly, and where it has been established it has been used mostly for the oppression of the workers rather than the protection of citizens. If there is any money available for such a purpose, our Legislators should use it to the end that the health, lives and limbs of the workers may be conserved, and that in case of injury or death, proper compensation may be paid without delay. We are unalterably opposed to the creation of a State constabulary or police.

Full Crew Bill—

We are opposed to the repeal of the "Full Crew" law, as advocated by the railroad corporations, because such repeal would be decidedly reactionary. The present law is beneficial in that it provides additional safeguard for the traveling public in our State, and is a protective measure for life and limb. The only argument against the present law is that of expense.

Garnishee Bill—

We believe that every person should pay his or her honest debts, but we are opposed to any bill which is intended to benefit a class of merchants who induce workers to buy goods on the instalment plan at exorbitant prices, and then take advantage of a temporary misfortune of the purchaser. The proposed garnishee law provides a sure and convenient method for a class of none too honest merchants to enforce collections by using the courts and employers as collection agencies, but will not reach the "dead beat." It would have the effect of imposing additional hardships on a large number of wage-earners. We emphatically protest against any legislation of this nature.

We demand further that before any legislation be attempted in the future affecting the wage-earners that their authorized representatives be heard or consulted, as rightly they should, because of their more intimate knowledge of the needs and desires of the workers than is or may be possessed by others.

This memorial was unanimously adopted at a conference of the undersigned representatives of organized labor held at 66 South Orange avenue, Newark, New Jersey, on January 23d, 1915, on the call of the executive board of the New Jersey State Federation of Labor, and copies ordered transmitted to his Ex-

cellency the Governor, and to the Senate and House of Assembly of the State of New Jersey.

A message was received from the Governor by the hands of his Secretary, and was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 8th, 1915.

To the Legislature:

Last summer my attention was directed to the traffic rules or ordinances in force in our municipalities. A cursory examination made it appear that they were complex and cumbersome; that in many instances they conflicted with statute law; that there was little uniformity in regulation between municipalities and that travelers on our roads could not inform themselves of all the rules they were required to observe. I thereupon requested Job H. Lippincott, Commissioner of Motor Vehicles, A. V. Hamburg, President of the Newark Board of Trade and George B. LaBarre, Director of Public Safety of Trenton, to investigate the subject and make report to me with recommendations which would lead to the improvement, simplification and standardization of such ordinances. These gentlemen very generously responded to my request and since last August have been studying the problem, which because of the growth of our population and the rapidly increasing use of our highways, principally by motor vehicles of all descriptions, has ceased to be solely of local interest and has become of State-wide importance.

The report of this commission is herewith transmitted to you. It contains valuable information, suggestions and recommendations with regard to the regulation of vehicular use of our streets and highways and shows, among other things, by a statement and comparison of ordinances of many municipalities, how different such regulations now are, how impracticable it is for users of the highways to acquaint themselves with the requirements of all, and how impossible of enforcement are many of them.

As a result of their studies, the commissioners recommend that a general statute be passed, regulating the vehicular, animal and pedestrian use of the road and dividing such regulations into those which can be applied to the whole State and those particularly applicable to cities and towns, with which recommendation I fully concur. Collateral to, but closely connected with, this main recommendation, are others designed to ensure greater safety and facility in road travel. Bills will be, or have been introduced to carry out these recommendations and I advise that the report be printed for the information of each member of the Legislature and also for the information of municipal boards and officials who will find it peculiarly instructive.

I would take this opportunity to make public acknowledgment of the valuable services rendered by these commissioners. They

have willingly given their time and devoted their talents to an exhaustive study of the problem assigned to them and this without compensation and without expense to the State and I desire to commend them for the public-spirited and efficient manner in which they have responded to my call.

Very respectfully,

[Seal] JAMES F. FIELDER,

Attest *Governor.*

L. EDWARD HERRMANN,

Secretary to the Governor.

The message was accompanied by a voluminous report of the special commission.

Mr. Martin offered the following report, and moved that it be spread in full upon the minutes of the House:

NEW JERSEY HARBOR COMMISSION,
75 MONTGOMERY ST.,
JERSEY CITY, N. J., February 8th, 1915.

To the Members of the House of Assembly, State of New Jersey:

SIRS—The New Jersey Harbor Commission begs to acknowledge the receipt on February 6th, of a certified copy of the resolution adopted by the House of Assembly on February 2d, calling upon it to report on certain matters concerning the disposition of the Morris canal.

This resolution calls upon the commission to submit a report on February 8th.

While the commission has informed itself in a general way, on the question of the disposition of the Morris canal, it has not given it that careful study that would justify the making of a report with recommendations and plans on such short notice.

This commission has been asked on numerous occasions by municipal officials, by commercial organizations and by private individuals to express its opinion and to make recommendations on this question, but it has carefully refrained from doing so in view of the fact that the New Jersey Legislature had appointed a commission under resolution of April 12th, 1912, to investigate and report to the Legislature on the disposition of the Morris canal, and that this commission had made its report and recommendations and that these are now before the Legislature.

Although the Harbor Commission cannot present any definite plan or recommendations to the Legislature within the time specified in the resolution, yet it does express its opinion that the proper settlement of the Morris canal question is one of the most vital matters now before the Legislature. It has a distinct relation to the transportation and industrial conditions throughout the State, and at the same time, has an important bearing on conditions at the port of New York.

It is well known that New York City is now confronted with grave financial difficulties. A special committee has been appointed there to devise means of producing additional revenue to meet the demands of the city government, and the development of property seems likely to be hindered by an advance in the tax rate. It is also well known that the exports at the port of New York have been increasing rapidly—January, 1915, showing an increase in exports of about $15,000,000 over January, 1914, and on one day in the latter part of January, 1915, amounted in value

to $7,968,759, which is the heaviest ever recorded at the port of New York on any one day in the history of the country's foreign trade—and this indicates that additional port facilities are needed to provide for this increase in commerce. New York harbor is already badly congested in its most desirable localities.

The time is right for New Jersey to profit by this increase in commerce if it shall provide the needed additional port facilities.

The Harbor Commission in many of its reports and public expressions has pointed out the physical advantages of the New Jersey portion of New York harbor, in that it is directly on the rails of practically all of the great transcontinental railroad systems, in comparison with New York's handicap in being separated from practically all of them by the Hudson river and New York bay.

These things are already well known to the Legislature and the Harbor Commission hardly needs to do more than to refer to them; but it does draw attention to the fact that in the settlement of the Morris canal problem there is involved a splendidly located stretch of waterfront on the Hudson river with the possibility of direct rail connection throughout the United States.

The possibilities of the physical development on the Morris canal properties adjacent to the Hudson river are very great. There is room to lay out a modern marine terminal, planned on the most economic and scientific lines. This would include modern piers equipped with facilities for handling commerce most expeditiously, warehouses for the storage of commodities incident to the handling of a large marine commerce, and industrial buildings provided with direct access to rail, water and land transportation.

The enterprise and progressiveness of commercial organizations and private interests in New York have created some splendid terminals. The New York Dock Company and the Bush Terminal Company have brought population and prosperity to their localities. A large modern terminal is now being laid out where it can have access to the waters of New York harbor only through a narrow congested creek, but it is developing rapidly and is an excellent example of what can be done by scientific management.

In the borough of Queens, New York, during the years 1913 and 1914, some forty new industries were located, bringing an agregate of more than 10,000 new employees and occupying more than 3,000,000 square feet of floor space.

All of these localities which have developed in the New York section of the habor are compelled to perform an expensive

lighterage service with the railroads terminating in New Jersey, and this would not be necessary were they located in the New Jersey portion of the harbor.

The *exact plan* under which the terminal properties of the Morris canal on the Hudson river may be developed is not the most urgent consideration. The *kind of development* that shall be made there and the *manner of its operation* concerns New Jersey most.

There are already too many railroad yards occupying the New Jersey frontage in New York harbor, and they have largely excluded the possibility of locating marine terminals such as have added greatly to the prosperity of other ports and other parts of New York harbor.

In the judgment of this commission the disposition of the Morris canal properties is indeed a vital question for the State of New Jersey.

If the Legislature desires to have the Harbor Commission report on this Morris canal question, it respectfully asks a reasonable time in which to do it.

In order to make a proper study of this question, the commission believes that it should be supplied with all available information on it. The following would be of great value and assistance to the commission in making this study:

The report of the Morris Canal Investigation Committee, which is now before the Legislature, and any additional data which this committee may have obtained.

The plan for the development of the Morris canal properties lying within Jersey City prepared by the expert engineer of the board of commissioners of Jersey City, together with the financial plan advocated by one of the city commissioners.

The study and plans made by the expert engineers employed by the Jersey City Chamber of Commerce.

The study and plan made by the harbor engineer of Jersey City.

The studies and plans made by officials of the city of Newark, and the recommendations which the commission is informed have been prepared by the association of the municipalities adjacent to Newark.

Any other plans and recommendations from interests along the entire line of the canal.

The plans and proposals prepared by the company which holds the canal franchise.

All of the above and any other information pertaining to this

question should be given consideration in making a report, and the Harbor Commission believes that these would be gladly supplied should the Legislature deem it advisable to refer this question to it with sufficient time in which to prepare a report.

The commission believes that the question of legislation involved is worthy of very careful study. New York has recently been forced to rely largely on private capital for the supply of needed additional port facilities, and in order to make this possible the Legislature of that State has now before it some important enabling laws. It may be important in this Morris canal solution for New Jersey to consider whether it can with wisdom and profit enact some similar legislation in order to make possible the increase of the commercial facilities of the State.

The Harbor Commission will be glad to take up this question and any others which the Legislature requests it to, and will proceed diligently with the work involved. It will make reports on such questions at the earliest possible moment that it can do so, after studying the facts and arriving at its own conclusions.

Respectfully submitted for the commission,

J. SPENCER SMITH,
President.

Which motion was adopted.

Mr. J. Hammond asked unanimous consent to withdraw

A resolution offered at the meeting of the State Board of Agriculture of New Jersey, held at Trenton, January 27th, 28th and 29th, 1915, recommending the repeal of the "full crew" law, was referred to the Executive Committee. This resolution was considered at a meeting of the Executive Committee held in New York on February 10th, 1915, and the following action was taken:

Resolved, That in the opinion of the Executive Committee of the State Board of Agriculture the service to be rendered by the railroads upon each of its trains should be carefully studied by the Public Utility Commission, and to that Commission should be given full power to enact rules which will be binding upon the railroads operating in the State, but which should not be made effective until the railroads have had an opportunity of presenting their side of the case to the Public Utility Commission.

We believe that the public should be thoroughly safeguarded and the Public Utility Commission should be instructed to have that object in view in the enactment of all rules to govern the requirements of the service. Without discussing the merits of the present law we applaud its motive of "safety first" for the traveling public, and there may be instances where it works a hardship upon the railroads, and for that reason we favor the placing of the entire subject under the control of the Public Utility Commission; be it

Further Resolved, That we recommend to the Legislature that it consider the advisability of committing this matter of a "full crew" to the Public Utility Commission with the proper power to regulate same, as suggested above.

Which motion was adopted.

Mr. Oliphant, on leave, introduced

Which motion was adopted.

Mr. Runyon requested that the members pay particular attention to the rules of the House with regard to having bills in proper form for introduction.

Mr. Runyon moved that the call of the House be raised.

Which motion was adopted.

The following notices of committee meetings were sent to the desk and read by the Clerk:

There will be a meeting of the Committee on Revision of Laws, Tuesday, February 23d, at 1 P. M.

EDMUND B. RANDALL,
Chairman.

The adjourned meeting of the Federal Relations Committee,. which was to have been held after this session, is postponed until Tuesday next, at 1:30 P. M.

WM. J. BARBOUR,
Chairman.

The Committee on Miscellaneous Business will meet Tuesday, February 23d, at 11 A. M., for a further hearing on Assembly Bill 131.

EDWARD SCHOEN,
Acting Chairman.

Mr. Mutchler, Chairman of the Committee on Public Health, announces that there will be a public hearing on Assembly Bills Nos. 85, 307, 364 on Tuesday morning, 10:30 o'clock, March 2d, 1915.

On motion of Mr. Runyon, the House then adjourned.

THURSDAY, February 18th, 1915.

At 10:30 o'clock the House met.

Upon calling the roll, the following gentlemen answered tc their names:

Messrs. J. Hammond, Oliphant, Weart.

Mr. Weart, Speaker *pro tem.,* in the chair.

There being no quorum present, the Speaker *pro tem.* declared the House adjourned until Saturday, February 20th, at 10:30 o'clock A. M.

SATURDAY, February 20th, 1915.

At 10:30 o'clock the House met.

Upon calling the roll the following gentlemen answered to their names:

Messrs. J. Hammond, Oliphant, Weart.

Mr. J. Hammond, Speaker *pro tem.,* in the chair.

There being no quorum present, the Speaker *pro tem.* declared the House adjourned until Tuesday, February 23d, at 2 o'clock P. M.

TUESDAY, February 23d, 1915.

House met at 2 o'clock P. M.

Prayer was offered by Rev. Ernest Ward Pickering, of Newark, N. J.

Upon calling the roll, the following gentlemen appeared and answered to their names:

Messrs. Agnew J. C., Anderson, Barbour, Barradale, Berry, Boland, Borden, Colgan, Conrad, Crosby, Dalrymple, DeCamp, De Yoe, Dolan, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Herrick, Hughes, Hunter, Iobst, Johnson H. D., Johnson J. J., LaPointe, Loblein, Martin, Morgan, Mutchler, Oliphant, Ostrom, Pancoast, Peacock Pierson, Pilgrim, Quinn, Randall, Runyon, Schoen, Scudder, Sheppard, Singer, Smith, Stevens, Thomson, Titus, Vannote, Weart, West, Whitman, Wolf, Wolverton, Zeiger—54.

Absent—

Messrs. Agnew A. M., Hammond O. H., Henry, Kates, Kays, Sullivan—6.

Mr. Runyon moved that the reading of the Minutes be dispensed with,

Which motion was adopted.

Mr. Barbour offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to Hon. William B. Davidson, a former member of this House from Passaic county.

Mr. Smith offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to Hon. John J. Booder, a former member of this House from Essex county.

Mr. Pancoast announced that Mr. Kates desired to convey, through him, to the members of the House his sincere appreciation and thanks for the beautiful flowers which were sent to

him at his home. Mr. Pancoast said Mr. Kates' condition was rapidly improving, and he hoped to be well enough to be in attendance with the rest of the members at next Monday evening's session.

Mr. Crosby, on leave, introduced

Assembly Bill No. 471, entitled "A supplement to 'An act concerning cities, providing for the officers, government and powers of cities adopting the same,' approved April fourteenth, one thousand nine hundred and eight,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Municipal Corporations.

The same gentleman, on leave, introduced

Assembly Bill No. 472, entitled "A supplement to an act entitled 'An act concerning cities, providing for the officers, government and powers of cities adopting the same,' approved April fourteenth, one thousand nine hundred and eight,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee of Municipal Corporations.

Mr. Stevens, on leave, introduced

Assembly Bill No. 473, entitled "A further supplement to an act entitled 'A general act relating to boroughs (Revision of 1897),' approved April twenty-fourth, one thousand, eight hundred ninety-seven,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Boroughs and Borough Commissions.

A message was received from the Governor by the hands of his Secretary, and was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February twenty-third, 1915.

To the Legislature:

Probably the most important and difficult task facing this Legislature is the proper solution of the Morris Canal abandonment problem. Having waited for the conclusion of your committee hearings before expressing my views, I now request the privilege of communicating them to you.

I think it generally conceded that the canal has outlived its usefulness and is no longer a convenient or profitable medium for freight transportation. Increased and improved railroad facilities have made carriage by rail more prompt, efficient and economical, and the Morris Canal cannot successfully compete with the railroads. Widening and deepening it would not satisfactorily increase its capacity for competition and it conclusively appears from the report of Louis Focht, appended to the report presented last year by the Morris Canal Investigating Committee, that sufficient water could not be secured to feed the enlarged canal and that the cost of construction and operation would be prohibitive when compared with the results likely to be attained. Shall it then be abandoned? That should depend entirely upon the fairness to the State of the terms proposed.

The Canal Company secured a charter on advantageous terms. Special consideration was shown the Company by relieving it of all State, county and municipal taxes from 1824 to 1884 and by permitting it to dispose of its surplus water from which it received $400,000. It was permitted to lease its property to the Lehigh Valley Railroad, when the purpose of the Railroad Company was, as it afterward developed, to eliminate a business competitor. The canal has depreciated the value of adjacent property along its whole line and has been a barrier to municipal development, the laying of sewers, water mains and other underground work. It has hindered the abandonment of grade crossings and for the last forty years it has been a detriment to that part of the State through which it runs. So long as the venture was profitable, there was no suggestion of abandonment, but now that interest charges, taxes and the cost of maintenance are burdensome, the Lehigh Valley Railroad desires to be relieved of the bargain made with the State when its lessor sought a charter. But the State is under no obligation to relieve it, unless the terms offered are attractive to the State. Abandonment will mean a large annual tax loss to the State, and it is better to suffer the ills the canal brings for a time longer than surrender the State's rights without fair compensation.

As I understand it, there are pending in the House of Assembly joint resolution No. 1, by Mr. LaPointe; bills Nos. 53, 54 and 55, by Mr. Godfrey; bill No. 369, by Mr. Ostrom, and bill No. 419, by Mr. Martin, all relating to canal abandonment.

I do not favor ouster proceedings because I consider such course improper and impracticable. I do not believe the Canal Company or the Railroad Company has abandoned the canal. The Canal Company is under no obligation to operate boats, its charter merely requiring it to maintain a public water highway upon which others may float their boats, and I do not understand that it has refused passage to any one desiring to put a boat through. The canal is said to be a nuisance, but the Lehigh Valley Railroad is not responsible for its pollution by dead animals, garbage, rubbish and sewers and drains emptying into it, all of which can be prevented by the health and police authorities. But should an ouster suit result in a judgment against the Company, what then? I find nothing in the canal chater to the effect that in case of abandonment the property shall belong to the State, and, in my opinion, should the courts decide that the Company has ceased to live up to the obligations of its charter, all property acquired by condemnation or by deeds containing a reversionary clause, being more than eighty-five miles of the total one hundred and six miles in length, would revert to the original owners, or their heirs, as would also certain water rights of great value. The balance of the property owned absolutely by the company, would be owned by the stockholders and would be disposed of for their benefit. Moreover, the State should deal fairly and justly in the matter and should not confiscate the property if it could, to the loss of stockholders, even if most of the stock is owned by the Lehigh Valley Railroad.

Permit me to state my views on the Godfrey bills, Assembly 53 and 55. The first is the Abandonment bill, the other the Parkway and Boulevard bill. They must be considered together, because all through the Abandonment bill reference is made to the Parkway, Boulevard and Canal Commission, direction being therein contained that such commission shall have the manage-

ment and disposition of all property, money and funds which the State may receive under the settlement proposed and shall otherwise carry out the terms of the Abandonment bill. Each bill, therefore, depends on the other, and both must pass in order that the abandonment scheme thereby contemplated may be effected. In my first message to this session, I pointed out how this kind of legislation infringed upon the constitutional prohibition against "mixing in one and the same act such things as have no proper relation to each other" and that "every law shall embrace but one object." I object to providing in the Abandonment bill even indirectly how the money the State may receive shall be expended, believing that the Joint Appropriations Committee can better determine whether such funds should be expended for a normal school in South Jersey, the enlargement of our insane asylums and other State institutions, or the establishment of new ones; the relocation of the State Reformatory and the removal of our State Prison; the building of new roads; the purchase of toll bridges; the development of forest reserves and water rights, or measures of protection for ocean front owners from ravages by the elements.

The Godfrey bills propose to give the Lehigh Valley Railroad property in Jersey City consisting of two valuable water basins and the canal property from the Hudson River to Fiddler's Elbow, as well as the lands the Railroad now occupies in Phillipsburg. These two terminal properties are by far the most valuable property owned by the Canal Company and it is these particular properties that the Lehigh Valley Railroad has been striving for years to secure. It will gladly give away the balance of the canal property, thereby ridding itself of a load it has found exceedingly expensive to carry. The only part having any value which the State will secure is from Fiddler's Elbow to the Hackensack River, and from the Passaic River to the westerly line of Paterson. The remaining lands are practically valueless to the State. I would call attention to this proposition as it affects the lands in Phillipsburg. The Company now owns these lands and pays taxes on them. The Godfrey bills propose to vest the title thereto in the State, but reserving the exclusive right to the

Railroad to use the surface for its embankments, road bed, main line, branches and switches. In other words, the Lehigh Valley Railroad is to be given a perpetual lease without rental charge of all the property is now occupies in Phillipsburg, and to be relieved of paying taxes thereon, because it will no longer be the owner, being a far better arrangement than it now enjoys.

I am decidedly opposed to the State giving up this valuable water front on the Hudson River, especially for the pitifully small consideration proposed by these bills. Here a tide-water terminal with vast railroad connections could be developed, of great value to the State, where steamship piers, warehouses and factories could be located and the Lehigh Valley Railroad accommodated as a tenant and a hive of industry established which would exceed the Bush Terminal in Brooklyn in commercial importance and value. I cannot conceive how any one interested in the State's welfare can be willing to see it lose this opportunity to develop an extremely valuable asset without exacting a large consideration on its sale.

I cannot favor the proposition to establish a new Commission to dispose of the Canal property. The general opinion is that we have too many commissions in the State, and the Economy and Efficiency Commission has recommended the merger of park and other commissions into a Department of Conservation and Development. This is the Department in which the disposition of the State's share of a settlement on abandonment should be placed, whether under the Godfrey bills or any other bill, no new and expensive commission being necessary. I am also opposed to the proposition contained in the Godfrey bills, that the Governor, Road Commissioner and other State officials shall serve on this Commission. The Governor and the other State officials are now fully occupied with the duties of their offices and it is not good business to expect them to undertake the management of a difficult and intricate real estate operation, to say nothing of the other duties they would be required to perform as members of the Parkway Commission. The Road Commissioner has very recently requested me to relieve him from further service on

one of the State Commissions because the duties of his department are so exacting as to require all his time, and I am to-day complying with his request by appointing another in his stead. In my inaugural message I called attention to the burdens placed on the Governor which interfere with the discharge of his more important duties, and I asked that I be relieved of some of them, not that they be added to. My experience of nearly two years in this office satisfies me that I shall be unable to find the time for proper service on any such Commission as the Godfrey bills contemplate, and, with due respect to the Legislature, I will say that I would not attempt to perform such duties and share the responsibility and criticism that I feel sure will follow the certain failure of the parkway and boulevard plan. While speaking of this Commission may I direct your attention to the fact that section two of bill number fifty-five authorizes the Commission to appoint and remove at pleasure all engineers, clerks and subordinates and to fix their duties and salaries. The Commission will be required to employ a large corps of engineers, mechanics, inspectors, workmen, lock tenders, laborers and policemen, and the section referred to provides that none of these employees shall be under Civil Service. This does not harmonize with the declaration contained in the platform adopted last September by the political party to which the introducer of these bills belongs, which is that "we call the attention of the citizens of New Jersey to the raid on Civil Service and efficient government made by the Democratic party of the State in the last few years. When entrusted with the administration of the State, we promise to remedy this evil." If these bills are to pass, may I, in view of the declaration quoted, venture to hope that this section will be amended so as to make the Civil Service Act applicable.

Permit me now to refer to the parkway and boulevard scheme, which I consider wholly impracticable. It strikes me as the height of absurdity at this time of financial stringency, when our funds are sorely needed elsewhere, to plunge the State into a speculative venture which is likely to entail large appropriations for construction and upkeep. The plan proposed is to purchase

lands on either side of the canal from the westerly line of Paterson to Phillipsburg, a distance of eighty miles, and lay out the same with landscape gardening, trees, shrubs, plants and lawns, construct boulevards on both sides of the canal and renovate and remodel the waterway, reconstruct its locks and planes and throw stone bridges, arches and viaducts across it. This would give two parkways, each eighty miles long by five hundred feet or more wide on each side of the canal. The report of the Morris Canal Investigating Committee is silent on the cost to acquire the land and for construction and upkeep of such parkways. It is estimated that the Commission will receive a million dollars as the State's share of the proceeds of the settlement proposed by the Godfrey bills, one-half of which will be devoted to parkway and boulevard purposes, but five hundred thousand dollars will be but a small portion of what this speculation will cost. The sponsors for this scheme say that they are to be authorized to make unlimited purchases of lands lying outside of and adjoining the parkways, and that when the parkways and boulevards are completed these additional lands will be sold and the enhanced value will help pay the construction cost. But there must first be money for construction, and, without more than mentioning the fact that no money will be available for such purchases, unless subsequently appropriated by the State, let me ask if the improvement proposed will enhance the value of adjacent lands, why should the owners sell and permit the Commission to reap the immense profits that will accrue? Why should the owners not hold the lands, and when the wonderful improvement is completed, sell at the high price and put the profits in their own pockets?

A conservative estimate is that the cost of construction of an ordinary boulevard is $30,000 per mile, although an ordinary boulevard is not contemplated, but a boulevard on which many may ride abreast, but assuming the cost to be $30,000 per mile, the boulevard alone for a distance of eighty miles on either side of the canal would cost $4,400,000, and the cost of the land to be acquired, the reconstruction of the canal, the bridges, arches,

concrete locks, artificial lakes and landscape gardening, would bring the first cost up to at least $15,000,000. What would be the cost of maintenance? It costs the Lehigh Valley Railroad about $97,000 to maintain and operate the whole canal in its present condition. Let us assume that under State management this portion of the canal reconstructed, its locks and planes operating and pleasure seekers passing through by boats and using it for bathing and skating, it would cost $80,000 per year. Add the salary of a superintendent of parks and roads at $5,000; one hundred workmen to keep the grass cut, the shrubs and trees trimmed, the gardens weeded and the boulevard in repair for one hundred and sixty miles, at fifty dollars per month for nine months each year; a policeman every three miles on each side of the canal, or say fifty policemen at one thousand dollars per year, and we have a total of $180,000 annually. We should consider, too, the value of the water required to keep the canal full, which otherwise might be put to potable or manufacturing purposes elsewhere. Heretofore the water has been let out of most of the canal in winter and the feeders, ponds and lakes allowed to fill up, but under this plan it would be required to be kept full for scenic purposes and skating. It has been estimated that the loss of water from this eighty miles of canal, by seepage, leakage and evaporation, is over one hundred and ten millions of gallons per day. The combined population of Newark, Jersey City, Hoboken, Paterson and Passaic is about a million, and if each inhabitant of these cities used a hundred gallons a day, they would consume a less number of gallons than are required each day to keep this parkway canal full. If the amount of water thus required to fill the canal were owned by the State Water Supply Commission, it could be sold for at least $40 per million gallons, and the daily income would be $4,400, but if it is to be used under the canal and parkway plan, its value should be added to the annual cost of operation.

How will the cost of construction and annual maintenance be raised? The right to assess adjacent property for benefits is given to the Commission, and as the cost of construction will be

immense, the assessment must necessarily be high. The assessment is not limited to abutting property owners, but every owner whom the Commissioners believe benefited, will be called upon to bear his share, and no one knows how far back from the canal the assessments will be laid, and, as the assessments must be high, they may in some instances exceed the value of the land, and as there will be an immense area of land back of the eighty-mile strip, the whole could not possibly be marketable at an increased price for years to come. The cost of maintenance would have to be met by an annual appropriation, even were the Commission to charge vehicle tolls for the use of the roads and boats and skaters for the use of the canal.

It is said that the canal would be used by thousands for bathing and boating. The canal is but five feet deep. On its bottom and sides lie the bodies and skeletons of thousands of dead animals, decayed vegetation, garbage and the mud and slime accumulated during seventy-five years. Remove this and the seepage and leakage already so great will increase. Line the bottom and sides with cement and the cost would be staggering. It would not be a practical highway for motor boats, which because of their wash could move no faster than four miles per hour—too slow for pleasure—and thus sailing ten hours a day it would require two days to traverse the length of the canal one way, and if tolls were charged at the present rate of fifteen cents per mile, the cost for a one-way trip would be twelve dollars. Then, too, it would be impossible to cradle the motor boat of ordinary construction up the planes, because of the strain on its timbers and planks and special, heavy and cumbersomely constructed boats would be required. How many do you suppose would be thus constructed for such slow pleasure travel?

There are sixteen locks or planes within a distance of seven or eight miles, either way from Lake Hopatcong, and the water for the operation of these locks and planes would be drawn from the lake, in addition to the water required for seepage and leakage. This would require a great drain on the lake and should not be permitted. I believe that the scenic beauty of this sheet

of water, with its forty miles of shore line, its bays and coves, and its beautiful mountain scenery is worth more as a public park than many miles of canal parkway.

For the reasons I have set forth at some length, I do not observe any merit in the Godfrey bills. They would permit the Lehigh Valley Railroad to part with what it does not want, the possession of which imposes on it a stupendous financial burden and gives it possession and good title to what it does want, at the same time relieving it of its burden. They would give the State property it does not need and take from it forever that which is of great value, and which can at once be put to use. They would commit the State to a gigantic speculative scheme, the outcome of which, unless financed by the State at stupendous cost, means absolute failure. I read with genuine astonishment in a copy of the "State Republican News," issued by the New Jersey Republican State Committee, under date of February 20th, 1915, a statement to the effect that that Committee is behind the Godfrey bills, that it urges their passage and assumes to possess accurate knowledge that they will be passed by the votes of the Republican members of the Legislature. This is no political issue, and can only be made one by those who assume to manage the Republican party and to control the votes of its representatives. Such a situation makes me fear that the years are being rolled back, and that we are living again in those days which the railroads, the public service and other large corporate interests called "good," when a Board of Guardians flourished and exercised their powers and influence for the interest and benefit of these corporations who, in turn, made it possible for the Board of Guardians to exist. I cannot believe that any Canal Abandonment bill will be passed or defeated at the behest of those who pretend to have the control and management of a political party, and who would use their power for the benefit of the Lehigh Valley Railroad, and I resent the interference of the Republican State Committee in this connection as emphatically as I would resent the activity of any lobbyist.

Let me now refer to the Ostrom bill. This is as objectionable

as the Godfrey bills because it proposes to give absolutely to the Lehigh Valley Railroad what it demands, namely, the same property as the Godfrey bills, requiring the Railroad to pay the State a million dollars, but dividing the proceeds of the sale of the property between Fiddler's Elbow and the westerly line of Paterson equally between the State and the Railroad, so that the latter may be reimbursed for a large portion of its payment. I am not surprised that the Lehigh Valley Railroad representatives have expressed a preference for this bill over the Godfrey bills, and it should not pass even though it does not commit the State as to the manner in which it shall dispose of the proceeds of so much of the canal property as the Railroad will permit it to have.

The Martin bill approaches my idea of the proper solution of the subject, although I am opposed, as I have already stated, to creating any unnecessary commission, and I am also opposed to giving either a municipality or a corporation the preferential right to any part of the canal property for which someone else is willing to pay more. The ownership of the canal property is in effect in the State, and its right to absolute possession will accrue in 1974. Neither the Lehigh Valley Railroad nor Jersey City is the owner of the basins or of any other part of the property, and neither has any right in the settlement to be preferred over the other as to any portion which both may want, without paying for it. I am also of the opinion that upon a settlement such as is proposed by this bill, a million dollars is too much to exact from the Railroad.

It is not my purpose to criticise these several bills without suggesting a method of settlement. In endeavoring to arrive at fair terms, it must be borne in mind that a wide difference of opinion exists as to the real value of the several portions of the canal property, and I fully understand that no settlement can be devised which will be acceptable to all, unless this rock on which we split can be avoided. If we can put all the property up for sale in the open market, we should all be satisfied that what it brings is what it is worth. Let me premise the statement of my plan with the statement that when the Lehigh Valley Railroad took over the Canal Company property in 1871, it agreed to pay or

subsequently became bound to pay items of expense which now are annually as follows:

	Annual Payment.
Canal Company preferred stock, $1,175,00, interest 10%,	$117,500
Canal Company common stock, $1,025,000, interest 4%,	41,000
Canal Company bonds, $500,000, interest 6%,	30,000
Balance dividend script, $47,237.50, interest 6%, about	2,800
Taxes, State and local, about	79,000
Maintenance and operation of canal, about	97,000
	$367,300

That is, as closely as I can compute it from papers and documents now available, the Lehigh Valley Railroad is now under a total annual interest, tax and maintenance charge of about $367,300 on account of the Canal Company property, with little, if any, income accruing to it therefrom. Since entering into its lease in 1871, it must have paid out over eleven millions of dollars in excess of all that it has received from the earnings of the canal, and if it continues to hold the property until 1974, it will expend at least fifteen million dollars more, and it must then surrender the property to the State. It is from this burden that it seeks relief. The State has never urged an Abandonment bill. All measures for this purpose presented to the Legislature have emanated from the Railroad Company or have been introduced because the Railroad Company was urging other bills. It is my belief that if the Company desires relief it should ask it in terms attractive to the State, and somewhat similar to those to which it would be compelled to submit in 1924. I therefore propose that the Canal Company and the Lehigh Valley Railroad shall turn over to the Department of Conservation and Development, when constituted, all property belonging to the Canal Company, including all water rights, and that the canal be abandoned; that in consideration of the State permitting the abandonment and

waiving its right to take the property in 1974 and relieving the Lehigh Valley Railroad from its heavy annual maintenance and other charges, the Lehigh Valley Railroad shall pay to the State five hundred thousand dollars and the State shall retain all water rights as its own property; that all remaining property be sold or leased in parcels, and if sold, it shall not be for less than a sum to be fixed by said Department, and for the basins, or any other portion of the property, the Lehigh Valley Railroad, Jersey City, and any other corporation, may bid against each other; that the proceeds of sale shall be invested under the direction of the State authorities and the income thereon shall be paid to the Lehigh Valley Railroad until 1974, when the principal shall belong absolutely to the State. If the State should decide to lease, rather than sell, any portion of the property, all persons or corporations desiring a lease may bid against each other and the State should accept the best offer made and pay the rental received to the Lehigh Valley Railroad until 1974. There are various details which could be provided for as part of the plan, such as the removal or reconstruction of bridges; arrangements for other crossings when the property is put to new uses; adjustment with Jersey City and other municipalities for streets now occupied by the canal and which would revert to the municipalities when the canal ceased to be operated as such, as well as the adjustment of claims of other municipal rights. All details to put in operation the plan I propose can be as readily worked out, as similar details have been cared for in bills heretofore presented to the Legislature.

In conclusion I would reiterate my statement that the State is not seeking the abandonment of the Canal, but the Lehigh Valley Railroad is, and if abandonment canot be had upon terms fair and just to the State, the State will lose nothing by waiting.

Respectfully submitted,

Attest: [SEAL.] JAMES F. FIELDER,

L. EDWARD HERRMANN, *Governor.*

Secretary to the Governor.

Mr. Runyon moved that the Governor's message be spread in full upon the Minutes of the House, and that the message be referred to the Committee on Railroads and Canals,

Which motion was adopted.

Mr. Martin moved that the usual number of copies of the Governor's message be printed,

Which motion was adopted.

Mr. Hunter, on leave, introduced

A message was received from the Governor by the hands of his Secretary, and was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: March 1st, 1915.

I herewith return Assembly Bill No. 159 without my approval, for the following reasons:

The bill provides that any city governed by Chapter 107 of the Laws of 1902, having adopted the Commission Government Act, and in which there has been an election to fill the offices of recorder, city treasurer, collector of taxes, constable or chosen freeholder, the persons so elected shall be deemed to have been lawfully elected, notwithstanding that any other persons may claim such office by virtue of appointment by the governing body of such city.

It will be observed that certain elements must be present to make the bill applicable and they are: (1) incorporation under the act of 1902; (2) adoption of the Walsh Act; (3) election for recorder and other officers; (4) other claimants to the offices; (5) such claimants appointed by the governing body. Should any of these elements be missing the act cannot apply. These conditions can refer to Atlantic City only, there being no other city in the State where all of them exist and, therefore, the bill is special legislation directed at that city alone. Such legislation violates the provisions of paragraph 9, section 7, article IV, of the Constitution which provides that "no private, special or local bill shall be passed unless public notice of the intention to apply therefor and of the general object thereof, shall have been previously given", and also paragraph 11, of the same section and article, which is that "the Legislature shall not pass private, local or special laws in any of the following enumerated cases; that is to say * * * regulating the internal affairs of towns and counties; appointing local officers or commissions to regulate municipal affairs."

But even were the constitutional objections not present, I could not approve this bill. It appeared at the hearing before me, that suits are pending in the Supreme Court to determine the legality of the election in question and have been argued. Legislation should not be enacted which might deprive one of the parties to such suits of any rights he possesses and is attempting to enforce thereby. If the election was lawfully held, no act is necessary, but if unlawfully held, the persons claiming to be elected should not be legislated into office. It further appeared to me from the arguments at the hearing, that the contest over the offices in question, is not interfering with the orderly conduct of the affairs of the municipality and that all necessary bonds can be issued, the city treasurer being a de facto official whose acts as such are receiving recognition.

Respectfully,

(Seal) JAMES F. FIELDER,

Governor.

Attest:

L. EDWARD HERRMANN,

Secretary to the Governor.

On motion of Mr. Runyon the Governor's message was ordered spread in full upon the Minutes.

Mr. Randall offered the following resolution, which was read and adopted:

WHEREAS, The Honorable Robert A. Roe, of Passaic county, a former member of this House, has been touched by the hand of death; and

WHEREAS, The Honorable Robert A. Roe, by his services to his country as a soldier in the late Spanish-American war, by his services as a member of this House, and by his career in public life, proved himself a patriot, a legislator of ability and integrity and a citizen whose example stands for all that is best in American manhood; therefore, be it

Resolved by the House of Assembly of the State of New Jersey, That we regard the death of Honorable Robert A. Roe as a distinct loss to the State, and we hereby extend to his family our heartfelt sympathy; and be it further

Resolved, That the House of Assembly cause a copy of these resolutions to be engrossed and forwarded to the widow of the deceased.

A communication was received from the Attorney General's office, which was read by the Clerk as follows:

STATE OF NEW JERSEY,
OFFICE OF THE ATTORNEY GENERAL,
TRENTON, N. J., February 26th, 1915.

Hon. Carlton Godfrey,
Speaker, House of Assembly,
State House, Trenton, N. J.:

DEAR SIR—I beg to acknowledge the receipt of a letter from the Clerk of the House of Assembly, in which he states that by direction of the House he is forwarding me a copy of Committee Substitute for Assembly Bill No. 152, with a request that I furnish the House an opinion as to whether the bill conflicts with the State Constitution.

The title of the bill is "An act to enable municipalities to assist in maintaining district or visiting nurse associations." From the title itself it is clearly apparent that the municipality is to assist in maintaining district or visiting nurse associations private in their nature. The bill itself provides that "in any muncipality of this State wherein there now is or shall hereafter be organized an association which has for its only purpose the maintenance and support of a nurse or nurses whose services are available without charge, to any needy person who may require them, it shall be lawful for the governing body of such town to appropriate and raise by taxation, in the same manner as other taxes are assessed and collected, a sum that may, in the judgment of the governing body of said municipality, be proper; which sum,

when so appropriated, shall be paid by the treasurer of the municipality to the treasurer of such association, and shall be used for no other purpose than the maintenance and support of such nurse or nurses."

The first criticism which I have to make to the bill is that the act by its title applies to all municipalities, whereas, by the body of the act it is made lawful for the governing body "of such town" to appropriate the money and pay the sum over to the treasurer of the association. Upon this question, however, the court might, in construing this bill, determine that the word "town" being a generic designation, would include all municipalities such as cities, boroughs, towns, townships, and villages, and possibly school districts as well.

The main criticism which I have to make to the bill is upon constitutional grounds, and which, in my judgment, makes the bill invalid. By the provisions of paragraph 20 of Article I of the Constitution of this State, it is provided that "no donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever." It is clear, therefore, from a reading of the act that the object thereof is, in fact, to make a donation of money to an association. In fact, the appropriation provided for by the act is a gift, and the act provides for no consideration. As the act clearly makes appropriations to associations in municipalities wherein there are now or shall hereafter be organized an association for the purpose named in the act, the same is, in my opinion, unconstitutional under paragraph 20 of Article I, hereinabove quoted.

In conclusion may I not also call the attention of the House to the fact that the bill does not definitely fix the amount which is to be paid to the association, but leaves that matter to the judgment of the governing body of the municipality. In other words, the bill states no minimum or maximum sum which should be raised. This may be a delegation of power in a governing body, to be exercised at their discretion. I doubt very much whether the Legislature can delegate a power of this kind to the governing body of any municipality. The power to raise money by taxation should be definite and certain, and leave no doubt as to the amount which should be raised.

I am herewith returning the copy of the bill which was sent me.

Very truly yours,

JOHN W. WESCOTT,

Attorney General.

On motion of Mr. Runyon, the communication was ordered spread in full upon the minutes.

Mr. Pierson asked unanimous consent to withdraw Assembly Bill No. 152 from the files of the House. There being no objection consent was granted and the bill was withdrawn.

Mr. Oliphant moved that the rules be suspended and that the vote by which

Assembly Bill No. 401, entitled "An act respecting the use of poles now, or hereafter located in streets, highways, and other public places, and respecting the powers, right, privileges and franchises in respect to such poles and the use and location thereof,"

Was advanced to third reading be reconsidered, and that Assembly Bill No. 401 be placed back on second reading for the purpose of amendment.

Which motion was adopted.

Mr. Pierson offered the following resolution:

WHEREAS, There is a growing feeling that the laws governing the issuance of bonds and notes to provide for temporary and permanent financing of public requirements are inadequate in their scope and regulations to properly control same; and

WHEREAS, It is clearly shown by an examination of the financial reports of a considerable number of the municipalities of this State that there is a lack of uniformity in the practices employed for financing municipal requirements, especially in the issuance of bonds with sinking fund provisions, and there seems to be no stable or adequate provision for the accumulation of sinking funds; that in some instances the sinking fund requirements are entirely inadequate to amortize the bonds when due, while in other cases the sinking fund requirements are far in excess of the real needs, thereby placing an unnecessary burden upon the present tax budget, and in still other cases only irregular payments are made to the sinking fund; that there also appears to be an utter lack of uniformity or proper regulation in making and discharging temporary loans, which in the end is sure to prove disastrous to the welfare of such municipalities; and

WHEREAS, The laws of our statute books do not appear to furnish adequate provisions or proper regulation for guidance in the issuance of bonds and the fixing of their annual sinking fund requirements; nor do our laws provide proper or business-

like directions for the making and proper discharge of instruments for temporary financing; therefore, be it

Resolved, That this House of Assembly authorize and does hereby instruct its Speaker to appoint a commission of seven members, to be known as the "Commission for the Survey of Municipal Financing", who shall serve without pay, to make an examination and survey of the methods and policies now employed by the several municipalities, school districts and counties of the State, together with the laws which pertain to and govern the temporary and permanent financing of same; said commission to report its findings to the present or next Legislature, with recommendations, supported by such bills as may seem wise for placing the several school districts, municipalities and counties on a sounder and more scientific financing basis; and be it further

Resolved, That said commission shall have the power to subpœna and examine witnesses, and to subpœna the production of any public records or documents, pertaining to the finances of any municipality, school district or county in the State. The said commission to meet during the present session of the Legislature and after adjournment thereof, in such place or places, and at such time or times as it may appoint; and be it further

Resolved, That the Appropriation Committee be requested to place an appropriation to the amount of two thousand dollars ($2,000) in the supplemental appropriation bill, to pay for necessary printing, clerk hire, stenographic work and other expenses of said commission, and that the said two thousand dollars ($2,000), or such portion of same as may be appropriated, be for the use of said commission as above defined, to be paid by the Treasurer of the State upon warrant of the Comptroller of the State, upon vouchers certified to by the chairman and two members of said commission

This resolution to be effective when the said commission is appointed.

On motion of Mr. Runyon, the resolution was ordered spread in full upon the Minutes, and the same referred to the Committee on Judiciary.

On motion of Mr. A. M. Agnew,

Senate Concurrent Resolution No. 2, amending State Constitution,

Was taken up, read a third time by the clerk as follows:

BE IT RESOLVED *by the Senate of the State of New Jersey (the House of Assembly concurring):*

That the following amendment to the Constitution of this State, having been proposed and agreed to by a majority of the members elected to each of the two houses of the Legislature of one thousand nine hundred and fourteen, and entered on their journals, with the yeas and nays taken thereon, and referred to this Legislature and published as required by the Constitution, be and the same is hereby agreed to:

Strike out Article IX and in place thereof insert:

ARTICLE IX.

AMENDMENTS.

Any amendment to the Constitution may be proposed in the Senate or General Assembly, and if the same shall be agreed to by a majority of the members elected to each of the two houses, such proposed amendment shall be entered on their journals, with the yeas and nays taken thereon, and referred to the Legislature then next to be chosen, and shall be published for three months previous to making such choice in at least one newspaper of each county, if any be published therein; and if in the next Legislature next chosen as aforesaid, such proposed amendment shall be agreed to by a majority of all the members elected to each house, then it shall be the duty of the Legislature to submit such proposed amendment to the people in such manner as the Legislature shall prescribe, at the election for members of the General Assembly held next after four months shall have elapsed after the amendment shall have been agreed to by both houses of the Legislature as aforesaid; and if the people at such general election shall approve and ratify such amendment by a majority of the electors qualified to vote for members of the Legislature voting thereon, such amendment so approved and ratified shall become part of the Constitution; *provided,* that if more than one amendment be submitted, they shall be submitted in such manner and form that the people may vote for or against each amendment separately and distinctly; *provided, further,* that when any amendment has been submitted to the people and by them rejected, no similar amendment shall be submitted again within five years from such rejection.

Mr. Schoen offered the following resolution, which was read by the Clerk:

WHEREAS, The high cost of living has created an economic problem which is of grave concern to all the people; and

WHEREAS, The State of New Jersey is endowed with a natural source of food supply along its Atlantic coast; and

WHEREAS, The inhabitants of the State of New Jersey have in the past reaped no apparent benefit from this natural source of food supply, but, on the contrary, have been compelled to pay increasing prices for the same; therefore,

Be it Resolved, That a committee consisting of six persons shall be appointed by the Speaker of the House of Assembly; and

Be it Further Resolved, That said Committee is hereby directed to make a written report upon the following matters:

1. A statement showing in detail all fishery rights in the waters of this State and along its borders now existing; the terms and conditions upon which they were granted and the return therefrom to the State of New Jersey.

2. A detailed statement showing the quantity of fish annually procured from the waters of this State and along its border, and how and where the same are disposed of.

3. A detailed statement showing the cost of operating the fisheries of this State and the annual revenue derived from the sale of the fish caught in the waters of this State and along its border.

4. Such other, and further, information concerning the fisheries of this State as the committee may deem to be of assistance to the Legislature in considering the subject.

And be it Further Resolved, That said committee is directed to make a report at the earliest possible date, with the end in view that, by legislative enactment, the fish supply of this State may be conserved for the benefit of the people of the State so that this article of food, an inexhaustible supply of which we have been endowed with, may be given to the people of this State for a fair and reasonable price, and the burden and cost of living be to that extent lightened.

And be it Further Resolved, That the said committee shall organize within fifteen days after their appointment; and shall have power from time to time to appoint such other and further employees and assistants as in their judgment may be necessary in the performance of the duties placed upon said committee by this resolution; the sum of fifteen hundred dollars is hereby specifically appropriated to pay the expense of said work; all bills to be paid by the State Treasurer upon the approval of said committee; the members of the committee shall serve without compensation.

Without recommendation.

Mr. Runyon, Chairman of the Committee on Judiciary, reported the following resolution favorably, without amendment:

WHEREAS, There is a growing feeling that the laws governing the issuance of bonds and notes to provide for temporary and permanent financing of public requirements are inadequate in their scope and regulations to properly control same; and

WHEREAS, It is clearly shown by an examination of the financial reports of a considerable number of the municipalities of this State, that there is a lack of uniformity in the practices employed for financing municipal requirements, especially in the issuance of bonds with sinking fund provisions, and there seems to be no stable or adequate provision for the accumulation of sinking funds; that in some instances, the sinking fund requirements are entirely inadequate to amortize the bonds when due, while in other cases the sinking fund requirements are far in excess of the real needs, thereby placing an unnecessary burden upon the present tax budget, and in still other cases, only irregular payments are made to the sinking fund; that there also appears to be an

utter lack of uniformity or proper regulation in making and discharging temporary loans, which in the end is sure to prove disastrous to the welfare of such municipalities; and

WHEREAS, The laws of our statute books do not appear to furnish adequate provisions or proper regulation for guidance in the issuance of bonds and the fixing of their annual sinking fund requirements; nor do our laws provide proper or business-like directions for the making and proper discharge of instruments for temporary financing; therefore, be it

Resolved, That this House of Assembly authorize and does hereby instruct its Speaker to appoint a commission of seven members to be known as the "Commission for the Survey of Municipal Financing," who shall serve without pay, to make an examination and survey of the methods and policies now employed by the several municipalities, school districts and counties of the State, together with the laws which pertain to and govern the temporary and permanent financing of same; said commission to report its findings to the present or next Legislature, with recommendations, supported by such bills as may seem wise for placing the several school districts, municipalities and counties on a sounder and more scientific financing basis; and be it further

Resolved, That said commission shall have the power to subpœna and examine witnesses, and to subpœna the production of any public records or documents, pertaining to the finances of any municipality, school district, or county in the State. The said commission to meet during the present session of the Legislature and after adjournment thereof, in such place or places, and at such time or times as it may appoint; and be it further

Resolved, That the Appropriation Committee be requested to place an appropriation to the amount of two thousand dollars ($2,000.00) in the supplemental appropriation bill, to pay for necessary printing, clerk hire, stenographic work, and other expenses of said commission, and that the said two thousand dollars ($2,000.00) or such portion of same as may be appropriated, be for the use of said commission as above defined, to be paid by the Treasurer of the State, upon warrant of the Comptroller of the State, upon vouchers certified to by the chairman and two members of said commission.

This resolution to be effective when the said commission is appointed.

On motion of Mr. Runyon the resolution was adopted.

Runyon, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf—32.

Mr. Barradale moved the adoption of the proposed amendments to Assembly Bill No. 53, as just read.

Upon the roll being called, the amendments were adopted by the following vote:

In the affirmative were—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Hughes, Johnson H. D., Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Randall, Runyon, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—36.

In the negative were—

Messrs. Agnew A. M., Agnew J. C., Anderson, Boland, Borden, Colgan, De Yoe, Dolan, Henry, Herrick, Hunter, Iobst, Johnson J. J., LaPointe, Loblein, Martin, Quinn, Singer, Sullivan, Vannote—20.

Mr. Wolverton offered the following proposed amendment to Assembly Bill No. 53:

Amend line 217, on page 13, by inserting in lieu of "one" the words "two and a half."

The Speaker called Mr. Smith to the chair.

The amendment offered by Mr. Wolverton was lost by the following vote:

In the affirmative were—

Messrs. Agnew A. M., Agnew J. C., Anderson, Barbour, Boland, Borden, Colgan, Conrad, De Yoe, Dolan, Henry, Herrick, Hughes, Hunter, Iobst, Johnson J. J., LaPointe, Loblein, Martin, Pancoast, Quinn, Schoen, Singer, Sullivan, Vannote, Wolverton—26.

In the negative were—

Messrs. Barradale, Berry, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Johnson H. D., Morgan, Mutchler, Oliphant, Peacock, Pierson, Pilgrim, Randall, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf—29.

The Speaker resumed the chair.

Mr. Martin offered a substitute for Assembly Bill No. 53, as amended.

The Speaker ruled the substitute out of order because it was identical with Assembly Bill No. 419, previously introduced by Mr. Martin.

Mr. Martin offered several lengthy amendments to Assembly Bill No. 419, which the Speaker declined to receive on the ground that they did not comply with the rules.

Mr. Martin offered a substitute for Assembly Bill No. 53, as amended, which substitute was the same as No. 419, with the exception that the amount of money to be paid the State of New Jersey by the Lehigh Valley Railroad is two and a half million dollars, instead of one million dollars, as provided in Assembly Bill No. 419 and section 13 of Assembly Bill No. 419 does not appear in the substitute.

Which susbstitute, the ayes and nays being called, was rejected by the following vote:

In the affirmative were—

Messrs. Agnew A. M., Agnew J. C., Anderson, Boland, Borden, Colgan, De Yoe, Dolan, Henry, Herrick, Iobst, Johnson J. J., LaPointe, Loblein, Martin, Quinn, Singer, Sullivan, Vannote—19.

In the negative were—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Hughes, Hunter, Johnson H. D., Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Randall, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—36.

Assembly Bill No. 53, entitled "An act to authorize abandonment of navigation upon the Morris canal, et cetera,"

As amended,

Was taken up, read a second time, considered by sections, agreed to, ordered to be printed, and to have a third reading.

Assembly Bill No. 54, entitled "An act to enable municipalities to acquire for streets, street railways and other public purposes, property of any canal wherever located, any part of which

passes through such municipalities whenever navigation on any such canal shall be abandoned by authority of law,"

Was taken up.

The following amendment to Assembly Bill No. 54, as proposed by the Committee on Railroads and Canals, was read, and, on motion of Mr. Barradale, was adopted:

Amend line three on page one by inserting the words "unless the act providing for said abandonment of navigation also provides for the new public use of the canal property within the municipality" after the words "for other uses".

Assembly Bill No. 54, entitled "An act to enable municipalities to acquire for streets, street railways and other public purposes, property of any canal wherever located, any part of which passes through such municipalities whenever navigation on any such canal shall be abandoned by authority of law,"

As amended,

Assembly Bill No. 55, entitled "An act to provide for the control, management, development, protection and disposition of the property and rights received or to be received by the State in, or as the result of any settlement with the Lehigh Valley Railroad Company concerning the Morris canal,"

Was taken up.

The following amendments to Assembly Bill No. 55, as proposed by the Committee on Railroads and Canals, were read:

Amend title by adding at the end of the title in the bill as printed the following words: "and for such purpose to establish a commission to be called the Parkway Boulevard and Canal Commission of New Jersey".

Amend line one, and line two on page one by striking out the word "fourteen" and insert in place thereof the word "fifteen".

Add the following words at the end of paragraph one on page three: "a majority in number of the members of said commission shall constitute a quorum to transact business and carry out the duties, powers and authority vested in said commission".

Add the following words at the end of paragraph seven on page six: "*And provided further,* that in addition to the properties, rights, privileges, releases and relinquishments conveyed, granted and made to the State as provided for in this act, the

said Parkway Boulevard and Canal Commission shall require the said Lehigh Valley Railroad Company to pay not less than five hundred thousand dollars in cash; and said commission shall have authority to make conveyances as herein provided on behalf of the State to said Lehigh Valley Railroad Company as soon as a price at or above the said minimum amount may be agreed upon and without the necessity of awaiting the sale or disposition of any part of the remainder of said canal property by the commission".

Amend line seven, in paragraph nine, on page six, by inserting the word "a" between the word "establishing" and the word "parkway".

Change the word section "26" to section "27", and insert a new section "26" to read as follows:

"26". "The waters of Lake Hopatcong and Greenwood Lake shall not be drawn or diverted for any other purpose than the non-potable uses of the Parkway Boulevard and Canal Commission of New Jersey, and for that use the waters shall not be lowered more than eighteen inches below the present normal high-water mark, and shall not be raised more than one foot above the present normal high-water mark".

Amend page six, paragraph eight, line one, change word "half" to "third".

Amend page fourteen, paragraph twenty-one, line two, change word "half" to "third".

Amend page fifteen, at end of paragraph twenty-one, by inserting a new paragraph to be known as 21A to read as follows:

"21A. The commission shall set aside one-third of the aggregate amount received by the commission from the settlement with the Morris Canal and Banking Company and Lehigh Valley Railroad Company and from any and all sales or other disposition which the commission may make of the canal property lying between Fiddler's Elbow and Paterson and pay over the same to the State Treasurer to be used by the State Board of Education for the purpose of constructing and establishing a State Normal School in one of the counties south of Mercer county in accordance with the provisions of an act entitled 'A supplement to an act entitled "An act to establish a thorough and efficient system of free public schools, and to provide for the maintenance, support and management thereof," approved October nineteenth, one thousand nine hundred and three,' which supplement was approved March twelfth, nineteen hundred and thirteen, provided that the amount to be set aside hereunder

shall not exceed the sum of three hundred thousand dollars. The balance thereof in excess of the three hundred thousand dollars shall be distributed equally according to the provisions of paragraphs eight and twenty-one hereof."

Upon the roll being called, the amendments were adopted by the following vote:

In the affirmative were—

Messrs. Barbour, Barradale, Berry, Conrad, Crosby, Dalrymple, DeCamp, Downs, Gilbert, Godfrey (Speaker), Greenwood, Hammond J., Hammond O. H., Hughes, Johnson H. D., Morgan, Mutchler, Oliphant, Pancoast, Peacock, Pierson, Pilgrim, Randall, Schoen, Scudder, Sheppard, Smith, Stevens, Thomson, Titus, Weart, West, Whitman, Wolf, Wolverton—35.

STATE OF NEW JERSEY,
SENATE CHAMBER,
March 2d, 1915.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following Concurrent resolution:

WHEREAS, Through a policy, which has existed and multiplied for years, under which the State assumes the expenses of many municipal and private property inspections, examinations and the like; and

WHEREAS, This expense has necessarily reached large proportions and in many cases possibly should be assumed by the municipalities or people directly affected, such as Civil Service examinations in municipalities under the law, inspections of tenement houses, inspections of factories, work shops, bakeries, etc., and a certain portion of health inspections, and those conducted under the direction of the Department of Weights and Measures, and other purely local functions now a burden of the State; therefore, be it

Resolved by the Senate (the House of Assembly concurring), That the Governor be requested to appoint a Commission of five to thoroughly investigate the subject and to consider the advisability of assessing in whole or in part the person or persons or municipalities receiving the direct benefit of such inspections. The Commission to consider as an illustration the method now pursued in charging to trust companies the examinations now conducted by the State Department of Banking and Insurance. The Commission to report to the Governor with any recommendation, which would tend to somewhat relieve the State of this large burden now assumed by them. The Commission to proceed from the standpoint that the State would still maintain and control the general service, but assessing the benefits in a proper and proportionate manner. The Commission likewise in its investigations to consider to what extent these State inspections are overlapping similar municipal inspections, and to recommend as a result of their inquiries and investigations a method where such overlapping could be averted.

The sum of five hundred dollars is hereby appropriated for the expenses of such commission when included in any regular or supplemental appropriation bill.

In which the concurrence of the House of Assembly is requested.

FRANCIS B. DAVIS,
Secretary of the Senate.

On motion of Mr. Runyon, the House concurred in the resolution.

Mr. Runyon, Chairman of the Committee on Judiciary, reported

Assembly Bill No. 161, entitled "An act creating the office of public defender in the counties of the first and second class, providing for the method of their election, defining their powers and duties and fixing the salary of such officers,"

Favorably, with the following amendments proposed by the Committee on Judiciary, which were ordered printed:

Amend the title of said bill so that the same reads as follows:

"An act creating the office of Public Defender in counties of the first and second class, providing for the method of their selection and appointment, defining their powers and duties and fixing the salary of such officers."

Amend Section 1 of said act to read as follows:

"1. The office of Public Defender is hereby established in and for all counties of the first and second class in this State which shall adopt the provisions of this act in the manner hereinafter provided. The person appointed as hereinafter provided to fill such office shall be known and designated as the 'Public Defender' of the county wherein and for which he is appointed."

Amend Section 2 of the same to read as follows:

"2. Whenever in any county of the first and second class having a Public Defender appointed under the provisions of this act any person who has been held to answer any criminal complaint for which he may be indicted or has been indicted for any crime, or, being charged with a crime, has waived indictment and

trial by jury and requested to be tried in the Court of Special Sessions of such county, shall request a judge of the Court of Quarter Sessions in and for such county to assign counsel to defend him or her, and shall satisfy such judge of his or her inability to employ counsel for such purpose, such judge shall make a written order assigning the Public Defender to represent and defend such person."

Amend Section 3 to read as follows:

"3. Upon the making of such order the Public Defender shall inquire as to the crime charged against such person, and his or her defense to the same, and shall do whatever is necessary and lawful to protect the defendant in his or her legal and constitutional rights."

Amend Section 5 to read as follows:

"5. In all counties where the office of Public Defender, as hereinafter provided, is established, such Public Defender shall be nominated and appointed by the Governor of this State in the same manner as the several prosecutors of the pleas are nominated and appointed, and shall be appointed for a term of three years commencing on the first day of February next following his appointment, and shall in counties of the first class receive a salary of forty-eight hundred dollars per annum, to be paid in semi-monthly installments of two hundred dollars, and in counties of the second class receive a salary of two thousand dollars, payable in monthly installments, in each case by the county collector of the county for which he is appointed, from county funds and in the same manner that prosecutors of the pleas are now paid their salary."

Amend Section 7 by erasing after the word "nominated" and before the word "or" in line one of such section the word "elected".

Amend Section 8 by making the same to read as follows:

"8. In the event of the death, resignation or removal of the Public Defender of any county the Governor shall nominate and appoint a Public Defender in his stead to serve *ad interim* for the then unexpired term of such officer."

Amend the act in question by adding thereto a new section as follows:

"11. The provisions of this act shall take effect only in such counties of the first and second class, wherein the board of chosen freeholders of such county, on or before the tenth day of September next shall by resolution duly passed and adopted, resolve to adopt the provisions thereof in and for the county in

which they hold office and represent. And upon the filing of a copy of such resolution, certified to be such by the secretary of such board of chosen freeholders, with the county clerk of such county, with the Governor of this State and with the Secretary of State for the State of New Jersey, which certificate shall be filed on or before the fifteenth day of September next following the passage of this act; *provided, however*, in case of the failure of the board of chosen freeholders in any county of the first or second class in this State to pass and adopt such a resolution and file certified copies of the same as above provided with the aforesaid county clerk, Governor and Secretary of State; then in that case, it shall be the duty of the county clerk in any such county where no such resolution has been passed and adopted and such certificates filed by or before September fifteenth next, to place upon the official ballot at the next general election for members of Assembly to be held in such county, and at the bottom and following the names of candidates to be voted for on such ballot, a proposition in the following form:

For	I favor creating the office of Public Defender.
Against	I oppose creating the office of Public Defender.

Instructions to Voters: If you favor the creation of the office of Public Defender in the county of ....., put a (X) cross in the square in which the word "For" is written. If you oppose the creation of such an office, put a (X) cross in the square in which the word "Against" is written.

And at such election it shall be the privilege of the voters of such county to vote in the manner above indicated, either favoring or opposing the establishment within such county of the office of Public Defender. And it shall be the duty of the election officers in such counties in all cases and respects to canvass the vote on such proposition and certify the same with all details, as required by law in all cases where any proposition by way of referendum can or may be submitted to the voters of any municipality in this State and if the result of the vote upon the said proposition is found to be that a majority of the votes

cast both for and against such proposition, have been cast in favor of the creation of the office of Public Defender in such county, upon a certificate of the county board of elections to that effect, duly attested and certified by the proper officers, it shall be taken and held to be that the office of Public Defender is established under the provisions of this act in such county and an appointment shall be made to such office accordingly.

Amend section 11 by striking out the numeral "11" and insert in lieu thereof the numeral "12".

Mr. Boland offered the following resolution, which was read and adopted:

WHEREAS, Another year has arrived in the life of Ireland to remind us of the fact that she is still the pride of the God-given right to rule herself; and

WHEREAS, As American citizens we deny the legal or national right of any people to rule another without that people's consent; and

WHEREAS, The advent of St. Patrick's Day serves to remind us of a time in the national history of Erin when she was first among the nations of the world in art, literature, science, law and music, and was the civilizing influence of the world, having founded the University of Paris in France, the University of Oxford in England and the University of St. Gall in Switzerland, which seats of learning still possess treasures of early Irish literature, art and science; and

WHEREAS, The Irish nation under England's misrule has been reduced in proportion by famine and exile, from nearly nine million population in 1840 to three million to-day; and

WHEREAS, The Irish exile from the very foundation of these United States have added to our wealth, our literature, our

science and our arts, and have by their genius and attainments in the navy, army, and in all the departments of legal and political government, assisted in enhancing the value of our institutions, and in defending and upholding them against all attempts to assail them abroad or to impugn the integrity of our constitution and our laws from every source, foreign and domestic; therefore, be it

Resolved by the members of the House of Assembly of the Legislature of the State of New Jersey, That we sympathize on the natal day of Ireland's Saint, with the unconquerable aspiration of the Irish race for freedom, and we record our hope and wish that ere another year shall have passed that the ancient land of Erin, the land of statesmen, saints and scholars shall be recorded among the free and independent nations of the earth, and shall become, in the language of the immortal poet Thomas Moore:

"Great, glorious, and free,
First gem of earth, and first star of the sea."

Mr. Singer offered the following resolution, which was read by the clerk and ordered spread in full upon the Minutes:

WHEREAS, Another year has passed in the life of Ireland wherein the House of Commons of the United Kingdom of Great Britain and Ireland has granted to the people of that God-loving country the restoration of her ancient Parliament and her right to rule herself, of which right she has been unjustly and autocratically deprived for over one hundred long, hard, heart-breaking and oppressive years; and

WHEREAS, The population of Ireland under the misrule of England has been reduced by famine and exile from 9,000,000 population in 1840 to 3,000,000 population to-day; many of the exiles coming to this grand country have greatly added to our wealth, literature, science and arts, and have by their genius and attainments in our navy, in our army, and in all the departments of our political government, assisted in enhancing the value of our institutions and in defending and upholding them against all attempts to assail them abroad or to impugn the integrity of our Constitution and our laws from every source, and by every means, foreign and domestic;

WHEREAS, The return of this right to legislate for herself and her people is, and of right ought to have been ceded to Ireland long years ago, and is now recognized by the people of this great State of New Jersey as an act of justice and the consequent broadening of the minds of the people of that Great United Kingdom in line with the world-prevailing tendency for the extension of that great democratic doctrine of "Home Rule" for which doctrine both of the great political parties of the grand American Republic stand, and which is by them recognized to be the evidence of the supremacy of the people in the management of their own affairs; and

WHEREAS, Ireland is now a nation of the world and able to govern herself free and independent of any other nation, and has manifested her gratitude for the restoration of her powers to be a nation by the grand and voluntary enlistment of thousands of her sons in the army of that great United Kingdom at a time when it was so sorely needed; and

WHEREAS, Ireland has ever been the seat of learning, and her sons have gone forth to the four corners of the world and

have spread education and learning to the nations of the world, and now hold many of the most important positions in the colleges of the world, as well as in the political life of these states and of this nation; and

WHEREAS, This learning was first brought to Ireland by the great Saint Patrick, who labored incessantly for the people of his adoption and left the seeds of greatness behind him to be enjoyed by the people who have ever loved and revered the name of their great patron, Saint Patrick, and who to this day have set apart this seventeenth day of March in his honor and to his memory; and

WHEREAS, The advent of Saint Patrick's Day serves to remind us that Erin is once more a nation and is rebuilding her national arts, literature, science, law and music which were the foundation of the universities of Paris, Oxford, St. Gall, which universities still possess the treasures of the early Irish fundamentals, and will before many years elapse again be on the ascendency in all matters pertaining to education; therefore,

Be it resolved by the members of the House of Assembly of the Legislature of the State of New Jersey, That we extend, on this natal day of Ireland's Saint, our heartfelt congratulations to Ireland as a nation and to the people of Erin, and their descendants and friends in these United States of America and to the members of this House of Assembly who are descendants of the Irish race and have a love for Ireland as a nation, upon Ireland's success in obtaining the right to rule herself; and we do further congratulate them on their unconquerable perseverence and persistence to accomplish this end, and we record our hopes that the freedom and liberty which has been granted them shall continue forever;

Be it further resolved, That the national flags of these United States of America and Ireland be presented to the Speaker of this House as a remembrance of the love which the Irish members of this House have for him and for the other officers and members of this House, and we sincerely hope and trust that this love will ever remain green and glorious.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: March 22d, 1915.

I take the liberty of returning herewith Assembly Bill 102, without my approval.

The classification for the purpose of personal registration under the Geran Law includes all municipalities having a population exceeding five thousand. I do not feel that the removal of townships from such classification can be legally justified, because there seems to be no legal reason why personal registration should be required in cities, towns, boroughs and villages having a population of over five thousand, while providing for no personal registration in townships until the population thereof exceeds seven thousand.

Respectfully,
[SEAL] JAMES F. FIELDER,
Governor.

Attest:
C. EDWARD HERRMANN,
Secretary to the Governor.

Mr. Peacock offered the following substitute for Senate Bill No. 9, which was read by the Clerk:

AN ACT to provide for the expression of the opinion of the people of New Jersey upon the question of State prohibition.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

1. It shall be lawful for the persons qualified to vote for mem-

bers of the General Assembly, and they are hereby required to hold an election throughout the State at the place or places where and when the election for members of the General Assembly is held, and determine by ballot whether or not the people of the State of New Jersey desire State prohibition to prohibit the selling or uttering of any malt, brewed, vinous, spirituous or intoxicating liquors.

2. The officers who are authorized by law to hold the next annual State election shall conduct an election to be held in pursuance of the first section of this act, and said election shall be commenced and conducted in accordance with the provisions and under the penalties prescribed by an act entitled "An act to regulate elections," and the several supplements thereto and amendments thereof, so far as said provisions are applicable.

3. Each ballot to be used at said election shall have written or printed on it, at the end thereof, the following form:

	Yes.	Do you favor State prohibition
	No.	

To vote for State prohibition make an × mark in the square opposite the word "Yes"; to vote against State prohibition make an × mark opposite the word "No."

4. A certificate of the result showing the number of votes in favor of and against State prohibition shall be signed by the board of elections and returned in the same manner as other returns are made where the people of the State are concerned.

5. The Secretary of State shall certify to the public printers the result of said election by counties so that it may appear in the volume of the pamphlet laws of the State for the year succeeding the said election.

6. This act shall take effect immediately.

Favorably, with the following amendments proposed by the Committee on Boroughs and Borough Commissions, which were read and adopted:

Amend bill by striking out section two and by adding the following sections:

2. *Provided, however,* this act shall not operate to effect the annexation of the territory above described as a part of the said borough of Lodi until it shall have been accepted by a majority vote of the qualified voters residing in the above-described territory at a special election to be held in the above-described territory on the first Thursday of June, nineteen hundred and fifteen, from six o'clock P. M. to seven o'clock P. M. of said day. The clerk of the said township of Lodi shall provide a suitable place for the holding of such election.

The clerk of the said township shall cause public notice of the time, place and object of such election to be given by posting said notice in at least five public places within the above-described territory for at least two weeks prior thereto, which notice shall also be published once a week for a like space of time in one newspaper printed in the county of Bergen and circulating in said district.

Said election shall be by ballot and shall be conducted by the board of registry and election for the election district of the township of Lodi, aforesaid, in which the above-described territory is situate. The registry of voters used at the last general election by the election boards of the first and second districts of the said township of Lodi, shall be used at said election.

3. Upon the ballots provided for said election shall be printed the proposition with instructions to the voters in the following form:

If you favor the proposition printed below make a × mark in the square to the left of and opposite the word "Yes"; if you are opposed thereto, make a × mark in the square to the left of and opposite the word "No".

	Yes.	Shall an act entitled "An act to annex to the borough of Lodi a part of the township of Lodi in the county of Bergen" be adopted?
	No.	

If the voter makes a × mark in black ink or black pencil in the square to the left of and opposite the word "Yes" it shall be counted as a vote in favor of said proposition.

If the voter shall make a × mark in black ink or black pencil in the square to the left of and opposite the word "No" it shall be counted as a vote against such proposition, and in case no mark shall be made in the square to the left of and opposite either the word "Yes" or "No" it shall not be counted as a vote either for or against such proposition.

The said officers holding said election shall immediately at its close certify in writing under their hands in duplicate the result thereof; one of which certificates shall be filed forthwith with the clerk of the township of Lodi and one with the clerk of the county of Bergen. The county board of elections shall proceed to canvass and determine the vote cast at said election at the time

and in the manner provided by law and a statement of the total result of said canvass shall be filed in the county clerk's office, and the county clerk shall thereupon forward to the Secretary of State and the clerk of the township of Lodi, respectively, a certified copy of such statement.

4. This act shall take effect immediately.

Mr. Runyon, Chairman of the Committee on Judiciary, reported the resolution by Mr. Schoen regarding an investigation of the fishing industry by the following Judiciary Committee substitute:

WHEREAS, The high cost of living has created an economic problem which is of grave concern to all the people; and

WHEREAS, The State of New Jersey is endowed with a natural source of food supply along its Atlantic coast; and

WHEREAS, The inhabitants of the State of New Jersey have in the past reaped no apparent benefit from this natural source of food supply, but, on the contrary, have been compelled to pay increasing prices for the same; therefore, be it

Resolved, That a committee consisting of six members of this House shall be appointed by the Speaker of the House of Assembly; and be it further

Resolved, That said committee is hereby directed to make a written report upon the following matters:

1. A statement showing in detail all fishery rights in the waters of this State and along its borders now existing; the terms and conditions upon which they were granted and the return therefrom to the State of New Jersey.

2. A detailed statement showing the quantity of fish annually

procured from the waters of this State and along its borders and how, and where, the same are disposed of.

3. A detailed statement showing the cost of operating the fisheries of this State and the annual revenue derived from the sale of the fish caught in the waters of this State and along its border.

4. Such other and further information concerning the fisheries of this State as the committee may deem to be of assistance to the Legislature in considering the subject.

And be it further resolved, That said committee is directed to make a report at the earliest possible date, with the end in view that, by legislative enactment, the fish supply of this State may be conserved for the benefit of all the people of the State so that this article of food, an inexhaustible supply of which we have been endowed with, may be given to the people of this State for a fair and reasonable price and the burden and cost of living be to that extent lightened; and be it further

Resolved, That the said committee shall organize within fifteen days after their appointment, and shall have power from time to time to appoint such other and further employees and assistants as in their judgment may be necessary in performance of the duties placed upon said committee by this resolution.

On motion of Mr. Schoen the resolution was adopted.
